General Membership Meeting Notes 5/4/17

Report of Executive Committee
Ian Moran, Tony Wittock, & Paul Bachowski attended the Winslow Business Breakfast the previous day and had the opportunity to promote the club and talk to township officials.

Old Business
The recent tryouts were discussed and it was agreed that they should be longer next year with a mixture of small sided play and exercises to evaluate players. More volunteers are needed and planning started earlier. Tryouts should be held during the week instead of at weekends.

The Travel Committee should meet soon to determine the format for team annual reports and request meetings with coaches. Mentors should also be allocated to new coaches.

Quam has been reviewing the rec coaches and feels it is going reasonably well, but more needs to be done for the Juvenile/Senior coaches to follow the plan for training. Commissioners should work more closely with Quam. It was suggested that parents and coaches should be surveyed at the end of the season for their views on the program.

New Business
A discussion took place on the need to maintain equipment and make sure such things as flags are stored securely after practice and games.

Teams should make sure that they line the fields regularly according to a schedule provided by Tony Wittock.

Good & Welfare
Quam is trying to build a relationship with Philadelphia Union to run a partner program.
