Our Program: For info on our Development Programs, please visit www.carolinafc.net.

Locations: Carolina FC Complex and McCracken Middle School

Staff: Staff will include CFC Director of Youth Development, Colin Francis, and other professionally licensed CFC staff to oversee all volunteer coaches.

Through our partnership with the Mary Black Foundation, Carolina FC is able to offer free Early Development Program and Youth Development Program soccer registrations to individuals born between 2018 and 2003 in certain Spartanburg zip codes.

Our development programs are designed for players to learn the sport of soccer in an environment focused on development both on and off the soccer field. The goal of the program is to improve the quality of soccer played in Spartanburg County, provide opportunities for more children to participate in the sport, and help young people become productive members of the community. Our development programs are designed for players that are ready for a step up from recreation soccer and can be a great place for any young soccer player that wants to learn from professionally licensed coaches. It is open to all boys and girls, ages 3 to 18.

Though there is nothing unique about a youth soccer club, we think that the level of our training is unrivaled in the Spartanburg area, as is our commitment to working with all young players in our community. We provide quality training and competition to all players in our area regardless of gender, race or socio-economic status. If we can't break the pay-to-play model of youth soccer, we're determined to bend it into something better. We are diverse. We are inclusive. We look like Spartanburg.
