Presidents Report

Given by Steve Bruton via Ken Marcin. As stated last month Tom Canavan has been working with IIU to schedule umpires for the games. We have been through many versions of this story and I am not going to rehash the details. All that mattered to me were 2 things...the games get covered and the umpires will get paid.

But when you represent 700 members and the funding I need to make sure what HAC is paying is accurate. The thing I want is to pay an umpire for a game he failed to work or pay an assignor fee for a game not covered.

This has been a daily nightmare for me and I would like to apologies to all members who were at games as to which no umpires showed.

We discussed the Woodbine sale. Nothing new from last meeting.
