The Chickamauga Recreation Association is a non-profit organization that provides children, ages 3-12, with the opportunity to play a variety of sports including baseball, softball, soccer, basketball, football and cheerleading throughout the year. We believe that athletics help keep our children active and engaged in positive activities. Athletics also help teach them skills in life such as hard work, respect and working as a team. Your generosity allows us to continue supporting our children and our community through support and improvement of our teams and our facilities.
