10,000 Kids. 12 Leagues. 1 Community. No Offseason.

JUNE ISSUE

Summer is always a good reminder to take a deep breath as a family. Don't get too caught up with summer sports camps and travel tournaments that you forget to catch lightning bugs and watch fireworks! Neighborhood games of tag can be a lot of fun and roasting marshmallows around the campfire can be, too. Whatever makes your summer most relaxing, I hope you get to do it.

At the Mudsock Youth Athletics office we're working through some changes. By August, we will have a new website and online registration software. Be on the lookout on what that means for winter registration. We're going to do our best to live in both worlds so that your schedule and communications are still coming from our old system for the fall season while simultaneously getting up to speed in the new system. There's never a good time to make this switch, but we're excited to tout all the new features you'll experience with it.

I regularly get the question about how we pick what sports we offer and how to start a new league. I'd love to chat with you at the Spark! festival later this month. Stop by our tent and I'm happy to hear what the next great sports we should offer at Mudsock Youth Athletics. If you're content with the current offerings, have your littles design their very own Mudsock Youth Athletics trading card. I hear they are even more rare than the latest Pokémon drops!

I'd be remiss if I didn't mention that we are always looking for coaches for the fall season. We have almost every league in action in the fall. If you receive an e-mail about volunteering, I hope you consider it. We've got practice plans and tools to teach you how to coach kids and our leagues are willing and able to assign commissioners or seasoned coaches to be your "coach" coach.

Fall sports are right around the corner and we can't wait to see you all again out on the fields and on the courts.

Have a great summer!

Sincerely,

Scott Spillman
Executive Director
Mudsock Youth Athletics
