

Resolutions: RMS/AYSOU

Announcements:

- **FMS:** In order to integrate all of AYSO's management systems, Single Sign-On will be available for NAP Online starting Monday, Oct. 2. Click [here](#) for more information.

Known Issues:

- **AYSOU:** We are having issues with certifications not posting on volunteer records after a roster is submitted. The development team is close to resolving this issue.
- **RMS:** A Regional Board listing is coming soon. In the meantime, please continue to maintain your board in eAYSO.
- **RMS:** An update is coming that will send out automated reminder emails to players and volunteers that left the application without providing an eSignature.
- **RMS:** An update is coming that will send out automated reminder emails to volunteers that did not submit their background check consent form.

Resolved Issues/Updates:

- **RMS:** As a result of a new update, the teams' page now displays a message next to volunteers' names, and the message provides reason on why they are not assignable to teams. Players will also have a message next to their name if they are not assignable to teams. For volunteers. "Invalid background check status" is the most common message, and it means the volunteer did not complete the background check consent process in the Verified Volunteer system. Step-by-step instructions may be found [here](#).
