

Register an Existing Player for Soccer

After logging into your account, you should see a screen that shows your player's name (see below).

The screenshot shows a 'Participants' header with a menu icon. Below it is a player profile for Julian Eyk, including a placeholder icon, name, birth date (March 02, 2016), and email address. A blue button labeled '3 Programs Available!' is highlighted with a yellow box. Below the profile is a horizontal bar with three segments: '2021 Spring-Core', '06U - Coed', and '6U Coed Team 3'.

To see the available Programs for your player, click the “3 Programs Available” button.

The screenshot shows a page titled 'Here are the available activities for your players' with a sub-header 'Available programs for Julian'. It lists three programs: 1. Fall 2021 VIP, 2. Spring 2022 Core, and 3. 2021 Fall Core. Each program has a 'View Divisions' button. The 'View Divisions' button for the '2021 Fall Core' program is highlighted with a green box. At the bottom, there are 'Back', 'View More', and 'Skip' buttons.

You should see the above three Programs: Fall 2021 VIP (our special needs soccer program for the Fall 2021 season), Spring 2022 Core (our upcoming core Spring program), and 2021 Fall Core (our core program for this fall).

To register your player for the Fall 2021 soccer season, click the “View Division” button to the right of the “2021 Fall Core” program header.

The available Division(s) for your player will be displayed. To pick the desired age division, click the "Select" button underneath the age division for your player.

After selecting the appropriate age division, click the "Continue" button to progress to the Registration Form.

To complete your player's registration after the next page opens, complete all of the required player information. When done, click the "Continue" button. This should take you to the checkout screen, where you can then pay your player's registration fees. Once your player's fees have been paid, their registration is complete. To ensure the process has been successful, you should receive a confirmation email after the registration process is done.
