

If you are a National Referee candidate who would like to request an assessment, or an ADRA requesting an assessment for a national candidate at the Patriots Cup, please review the following and provide the indicated information.

Assessments are normally requested by a candidate's Area Director of Referee Assessment (ADRA). Candidates should not directly contact the Section Director of Referee Assessment (SDRA) of Section 10.

Candidates from within Area 10E:

You should already be registered to referee in the tournament, and be in touch with the Area 10E ADRA about your assessment readiness status. Contact him about this and other opportunities for assessments.

Candidates in Section 10 but not in Area 10E:

The assessment request should be made by your ADRA directly to the Section 10 SDRA. A database of assessment candidates will be made available to ADRA's in Section 10, and assessments that can be accommodated will be scheduled according to information in that database. If the candidate is not registered to referee in the tournament, the following information is required and should be sent to the individuals listed below:

1. Name.
2. Your section, area, and region. (*i.e.*, S-A-R format).
3. Currency of all AYSO requirements for Live Scan, fingerprinting, etc. If any are out of date, they must be updated or you will not be permitted to referee in the tournament.
4. Any family-member team officials or players on any of the teams in the tournament; if so...
 - Region.
 - Division.
 - Head coach's last name.
5. Any other restrictions for you being assigned to games.
6. Is this for a referee or assistant referee assessment?
7. If the candidate would like to referee with specific fellow officials in the assessment match, please provide the following:
 - Names of any referees you prefer to officiate with on your assessment match.
 - If those referees are not separately registered to officiate in the tournament,
 - Provide the information in items 1-5 above.
 - The badge level of each referee.
 - Each referee's email address.
 - If their assignment to your assessment match cannot be accommodated, are you still interested in an assessment?
8. Day and time preferences:

- Which days of the tournament are you (and fellow officials) available (Saturday and/or Sunday)?
 - Time-of-day preference: morning, mid-day, or afternoon.
 - If the day/time preferences cannot be accommodated, is the candidature still interested in an assessment?
9. If the assessment cannot be scheduled, will the candidate and any preferred fellow officials still referee in the tournament?

Candidates from outside Section 10

The candidate's ADRA must be informed of the assessment request, and the request must include a brief written endorsement sent by separate email to the individuals below from the ADRA that the candidate is ready for an assessment.

The information about the candidate and possible other referees that is specified above (1-9) must be provided. Send that information to the individuals listed below along with items 10-14 below. Items 10 & 11 are used for the database described above for scheduling assessments.

10. Date and location of the National Referee class the candidate took.
11. Date of any prior assessments where the candidate was recommended for upgrade (do not list assessments where upgrades were not recommended).
12. Name and email address of ADRA.
13. Will your SDRA permit the assessment on a match other than a B19?
 - If so, what match gender and age are permissible?
 - A written endorsement of this allowance by the SDRA must be sent to the Section 10 SDRA with copies to the individuals below.
14. Is your section willing to provide an assessor for the assessment? This might make the assessment easier to schedule if there are games available but a shortage of assessors. If so, please provide the following:
 - Name of assessor.
 - Day and time-of-day restrictions of the assessor's availability
 - If the assessor is not available, or not available when the candidate p.refers to be assessed, should the assessment be scheduled if possible?

Questions about these instructions? Contact the Area 10E ADRA

Send requested information to:
