

We wanted to share with everyone updates regarding our COVID Policy, as before all policies are subject to change as new information becomes available. As such, we continue to monitor the CDC and DPH guidelines to use the most up-to-date guidance to make any needed changes to our practices.

Below are guidelines that will take effect on Saturday, May 29th, 2021.

- Masks are not required by players who are engaged on the field of play.
- Masks are not required to be worn by vaccinated coaches and volunteers that are able to maintain a 6ft distance from other staff and players.
- In all situations, a person must have a mask readily available for times when they cannot maintain a 6 ft distance.
- If you are a spectator and are unable to maintain a 6ft distance from non-family members, then you must wear a mask at our events.
- If you can maintain a 6ft distance, then you may remove your mask.
- Please always have a mask on your person since the amount of space you have available could change.

****Our protocols for our V.I.P. Program will continue to follow our previous COVID policies without change.
