Spirit of the Game and the Philosophy of Refereeing

(From I. D. 5. AYSO National Rules & Regulations)

"The Laws of the Game are intended to provide that games should be played with as little interference as possible, and in this view it is the duty of referees to penalize only deliberate breaches of the Law. Constant whistling for trifling and doubtful breaches produces bad feelings and loss of temper on the part of the players and spoils the pleasure of spectators."

The model set by the adults present (referees, coaches and spectators) at games influences the development and behavior of the young players watching. The referee team establishes the parameters of acceptable behavior and must be attentive to and deal appropriately with any adult behavior that does not present positive role modeling for youth. Law 5 and AYSO National Rules and Regulations provide this authority. Remember..

In AYSO, it's about more than the game!
