- Enter the constant information on the left-hand side: Jersey Color, Team Name, and Head Coach’s Name. The PDF will auto-fill the form on the right-hand side.

- Enter Jersey Number and Player’s Name (first and last name) in jersey number order as shown in this example.
- As noted above, enter the data on the left-hand side. The PDF will auto-fill the form on the right-hand side.

- There will typically be 10 games during the Fall season, 5 Home games and 5 Visitor games.
- Enter your Head Coach’s name on the Home line on one side and on the Visitor line on the other side. This way, when you print 5 sheets (2 cards per sheet), you will have the right number of cards for Home and Visitor team status. Print extra game cards if you anticipate making it to Play-Offs.

After populating your game cards, **save** the PDF file in your drive **before** printing 5 sheets.

Print your sheets in **cardstock** and customize the printer settings as such:

- Layout: Landscape
- Pages: All
- Print on **both** sides and select “flip on **short** edge”
- Click on “More settings” and select:
 - Paper size: Letter
 - Scale (%): 100
 - Pages per sheet: 1

This customization will ensure the printed card maximizes the page. Then, cut the cards (2 cards per printed sheet) and save them in your soccer bag and always bring them to games.
