If the event is at the same time and location each week which is common for practices, tap the **Repeats** option, and enter the recurring event details.

Notify Your Team:

Once you edit an event, you can notify team members right from the app.

1. Once you tap **Save**, choose either **Save & Message Team** or **Save & Don't Message Team**.
2. If you tap **Save and Message Team**, you can enter a note about the change and send it directly to your community.
