WELCOME TO THE FIRST TEAM!

FROM THE FIELD

“Our National Coaching Program is expertly designed, tested and accredited by the National Council for Accreditation of Coaching Education. We have a proven method for player development and I am proud of our contribution to the game in the USA.”

John Ouellette, AYSO Hall of Fame and Former National Coach

THANK YOU FOR VOLUNTEERING!

The American Youth Soccer Organization (AYSO) welcomes you to the colorful world of youth soccer coaching.

AYSO is a place where **every child plays** in an atmosphere of **good sportsmanship** and **positive coaching**. In addition to the game’s technical, tactical and physical components, we fully recognize and prioritize the psychosocial needs of our children and work toward the fulfillment of those needs in all our programs. Staying **truly** child-centered makes AYSO a model for other youth sports groups and is a key to our position as a **player development** leader.

The content of this manual is drawn from the knowledge and experience of AYSO’s Player Development Team and our National Coaching Advisory Commission—people with vast soccer knowledge, yet volunteers of AYSO—just like you. The coaching methodology and soccer skills included in this manual have been carefully researched and have **natural** alignment with U.S. Soccer’s Zone One (6-12 years) objectives for player development: Development over Winning, Age Appropriate, Quality Training, and Having Fun/Inspiring Players.

We encourage you to attend your local Region’s Annual Coach Orientation, as well as other AYSO coaching courses available in your area or online. Your Regional Commissioner or Coach Administrator can provide you with information about what’s required for your specific age group.

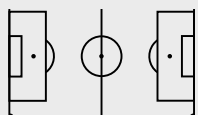

On behalf of the entire organization, thank you for joining the team!

NATIONAL COACHING ADVISORY COMMISSION

AYSO PLAYER DEVELOPMENT TEAM

AYSO

FROM THE FIELD

"We strive to galvanize the player development pathways of our youth soccer organizations. The common objective is to develop the next wave of youth players. In this collective effort, it is critical to promote a single message and common coaching methodology with respect to player development. AYSO's National Coaching Program is in line and coherent with these efforts."

*Dave Chesler, Former U.S. Soccer Director of Coach Education
Current WNT Performance Analysis Coach*

THE WORLD'S BIGGEST SOCCER CLUB

Founded in Torrance, CA in 1964, AYSO is a distinguished cornerstone of US Soccer and with approximately 60,000 teams across *all* age groups; AYSO is the world's largest soccer club!

Success can be measured in many ways, from the careers of professional players who got their start playing AYSO to the thousands of coaches (youth, high school, collegiate and professional) who developed their passion and understanding of the game in AYSO. Regardless of perspective, our contribution to the US game's success is founded upon our unique **Vision**, **Mission** and **Philosophies**.

KEEP IN MIND

Any player development or instruction should always include a comprehensive understanding and practical application of our core values.

AYSO VISION

To provide world-class youth soccer programs that enrich children's lives.

AYSO MISSION

To develop and deliver quality youth soccer programs in a fun, family environment based on the AYSO philosophies:

AYSO SIX PHILOSOPHIES

EVERYONE PLAYS®

Our goal is for kids to play soccer—so we mandate that every player on every team must play at least half of every game.

BALANCED TEAMS

Each year we form new teams as evenly balanced as possible—because it is fair and more fun when teams of equal ability play.

OPEN REGISTRATION

Our program is open to all children who want to register and play soccer. Interest and enthusiasm are the only criteria for playing.

POSITIVE COACHING

Encouragement of player effort provides for greater enjoyment by the players and ultimately leads to better-skilled and better-motivated players.

GOOD SPORTSMANSHIP

We strive to create a safe, fair, fun and positive environment based on mutual respect, rather than a win-at-all-costs attitude, and our program is designed to instill good sportsmanship in every facet of AYSO.

PLAYER DEVELOPMENT

We believe that all players should be able to develop their soccer skills and knowledge to the best of their abilities, both individually and as members of a team, in order to maximize their enjoyment of the game.

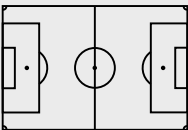

KEEP IN
MIND

AYSO Six Philosophies:

- Everyone Plays®
- Balanced Teams
- Open Registration
- Positive Coaching
- Good Sportsmanship
- Player Development

FROM THE FIELD

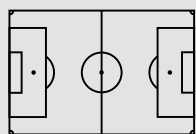

“It is better to win ten times 1-0 than to win once 10-0.”

Vahid Halilhodžić, Bosnian Coach and Former Professional Player

STEWARDS OF THE GAME

FROM THE **FIELD**

“We must all work together; coaches, officials and parents to create the optimal performance environments for our players’ development.

Players need to play with freedom, confidence and enjoyment in a developmentally rich environment to truly reach their potential.”

Scott Snyder
AYSO Player Development Specialist

Stewardship: “The conducting, supervising, or managing of something; especially: the careful and responsible management of something entrusted to one’s care” (2017 Merriam-Webster).

APPLICATION ON THE FIELD

Referees and coaches are to be Stewards of the Game and work together to ensure that player safety, at the physical and emotional level, is the number one priority on the field. All 7 members of the team (3 referees and 4 coaches) are equal participants and are there for the sole purpose of discussing how to ensure a safe and protective environment for the players to play. The Center Referee shall initiate a brief meeting between referees and coaches before the AYSO match to collectively:

- Identify any potential issues that may impact the ability of players to safely have fun; such as the field, sideline areas, field equipment, players' equipment, the physical and emotional states of participants, and other game related concerns.
- Review and follow a simple process that encourages communication and collaboration when there is a concern or issue with players/participants.

REFEREES

Referees, as Stewards of the Game, are responsible for keeping the game safe, fair, and fun. Referees should support and work with coaches to manage the behavior of players and spectators.

COACHES

Coaches must keep their sideline participation to being: Positive, Instructive and Encouraging at all times. Coaches must ensure respect and support for referees by players, parents, and all other spectators.

PARENTS

Parents are expected to respect coaches and referees, and model positive sporting behavior; and at the same time, maintain realistic expectations.

KIDS ZONE®

KEEP IT FRIENDLY

KEEP IN MIND

Sideline critics who scream instructions at players or criticize referees or coaches slow down the learning process and make it less fun for everyone. Consider every time you prepare to kick the ball you receive numerous screams of direction? Scary, confusing and annoying!

In AYSO, fans (yes, including parents) are asked to be cheerleaders, **not critics or sideline coaches**! Kids Zone® is a unique program that includes a Parent Pledge that moms and dads sign to commit to *positive, encouraging* behavior when they're watching the matches. It also includes signs, buttons and other match-day reminders.

Soccer is a *player's* game! Players learn the game by trying new things, making mistakes and trying again.

Negative, even violent, behavior of players, coaches and parents involved in youth sports has become almost epidemic in this country. Kids Zone® is a proactive effort to counteract this trend and involves the following elements:

To help execute this program, four basic elements are involved (and available from the AYSO Store):

1. **Kids Zone® Button.** Worn by program supporters at matches and serves as a reminder of the importance of positive sideline behavior.
2. **The Sign.** A large sideline poster lists positive behavior standards and can be posted at the entrance of participating fields. Parents and spectators who will abide by these standards are welcome-- all others are not.
3. **The Pledge.** AYSO requests all parents to sign a pledge that holds them to the Kids Zone® standards.
4. **The Video.** A 12 minute documentary introduces AYSO's principles and its Kids Zone® action plan to new participants. Viewers will also watch a parent intervene to change another parent's negative behavior. In order to make this program work, everyone must help!

KEEP IN MIND

Help create a safe and encouraging environment for you and your team by implementing Kids Zone®.

ayso.org/kidszone

THE ADVENTUROUS WORLD OF 10U

LET THE GOLDEN AGE BEGIN

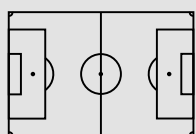

Ages 9-12 are often referred to as the “golden age” for learning. At AYSO, 10U is a time for **ADVENTURE!** where players’ willingness and ability to absorb new teachings are met with innovative and age appropriate **Player Development.**

From a coaching perspective, we now have two new significant elements to contend with: goalkeepers and offside. As you can imagine, this is a major shift in our players’ soccer experience. For the most part, the 10U game resembles that of full-sided, so our preparation, organization and coaching should progress accordingly.

COACHING METHODOLOGY

FROM THE FIELD

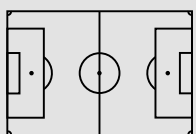

“One of my biggest pet peeves is youth team coaches who take winning too seriously. This has always bothered me, and I always tell coaches to forget about winning with young players. They need to create an environment where the kids enjoy playing and are developing their soccer skills. Winning should never be a priority.”

Landon Donovan, AYSO Alumni and Professional Player

The AYSO Player Development Team and NCAC have researched current coaching methodologies and approaches to quality training from all across the soccer globe and are proud to present our findings for your consideration and implementation.

DEVELOPMENT OVER WINNING

FROM THE FIELD

“Development over winning. Being faithful to it, being really faithful to it every single day. Are the players, are the kids the most important thing? That’s what I worry about. That’s what I talk about. That’s my only goal: making the players and of course, the coaches who teach them, all of us, better!”

Claudio Reyna, Former U.S. Soccer Youth Technical Director

Prioritizing **Development Over Winning** does **NOT** reduce competition, which is instrumental to a player’s development. However, a competitive environment does not necessarily need to be all about wins, draws and losses.

Consider the emotional roller coaster of equating success *only* when you win the game or score a goal (aspects that are *not* 100% within your control)? How would we like to be judged as adults in that type of scenario?

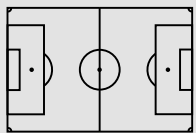

As coaches, it is our responsibility to determine if the competitive environment is healthy or not. Please consider this on your coaching journey.

KEEP IN MIND

Children should be competitive, not the adults! And a competitive environment for our youth players should focus on **performance** rather than **outcome** (favoring ball skills, effort, creativity, etc., as means to find success, not the score).

FROM THE FIELD

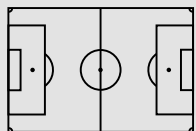

"In matches the coaches should keep out of the way. He/she is an important figure, of course, but is more likely to lose a match than win it. Matches are won by players."

Romario, Brazilian Legend

CHARACTERISTICS OF SOCCER (VS. OTHER U.S. SPORTS)

FROM THE FIELD

"AYSO emphasizes all the positives of soccer: the enjoyment that kids get from the sport, understanding how to play on a team and be a good teammate, and developing skills in a fun environment."

Julie Foudy, AYSO Hall of Fame, 1991 & 1999 World Cup Champion, 1996 & 2004 Olympic Gold Medalist

It is important to recognize some key differences between soccer and other American sports, as this impacts how the game should be played, viewed and coached. In comparison, soccer is:

- Free-flowing (fewer stoppages).
- Low-scoring (more often).
- Requires eye-foot coordination (versus eye-hand in baseball, basketball, football).
- Has no physical size requirement.
- Equal opportunity sport (girls are equally as talented and have comparable opportunities to boys).
- **PLAYER-based** (as game flows, *players* make the decisions and **PLAY** the game, less coach involvement).

STYLE AND ATTITUDE

Mourinho, Ferguson, Klinsmann, Guardiola? Coaching styles differ based on personality and beliefs on how the game should be played. Effective coaches; however, **all** possess similar qualities:

- | | | |
|-----------------------|----------------------------|--------------|
| • Leader | • Knowledgeable | • Observant |
| • Teacher & Motivator | • Quality Demonstrator | • Humorous |
| • Conscientiousness | • Enthusiastic & Energetic | • Personable |
| • Fair & Honest | • Patient & Understanding | • Confident |
| • Smart Appearance | • Communicator | |

The general qualities of any coach combine into four fundamental attributes all successful coaches share:

1. Soccer knowledge.
2. Prioritize athlete's well being.
3. Ability to communicate knowledge to the player.
4. Ability to observe and evaluate (coaching eye) to correct any apparent faults (in a positive manner).

KEEP IN MIND

Whatever coaching persona you may adopt, avoid being the center of attention! Create an environment where the players are the focus and priority, and they can gain success on their own.

PREPARATION AND ORGANIZATION

PREPARATION

Always prepare a written Training Plan! Consider what you wish to work on and what activities you can use to achieve your goal. A written plan ensures smooth transitions, less down time and a more economical use of precious time. A blank AYSO Training Plan is on *page 99* and numerous completed plans on *pages 74-85*.

Take a few minutes just before your training session to review your plan and the coaching points you want to make. (Consider saving your plans as a coaching library for future seasons/sessions or to share with other coaches in your Region.)

APPEARANCE

Appropriate attire is expected when conducting your coaching session. Wearing soccer apparel and footwear go a long way to comforting your players that you know what you are doing related to your role as their "soccer coach."

Sunglasses are discouraged (unless you require a medical prescription), as the players cannot see your eyes. Even with a prescription, remove your sunglasses when in direct communication with your players.

ORGANIZATION

Ideally, set up your area in advance of players and parents arriving. **Upon their arrival, they should see a planned and organized environment, which will immediately set the tone for the session as well as provide confidence for the parents.** In organizing your coaching area:

- Make sure the area is safe (playing surface, physical considerations, sprinklers, etc.).
- Plan for a smooth transition from one exercise to another.
- Minimize the number of cones that you have to pick up or reset.
- Have a place for equipment and breaks.

EQUIPMENT

Below is a basic list of the minimum equipment you should have as part of your coaching kit:

- AYSO Player Registration Forms – which include the Emergency Authorization.
- Basic first-aid kit*.
- **(Players should bring water to every session).**
- 12 cones (preferably multi-colored).
- **10** scrimmage vests (preferably 2 sets of different colors).
- Extra soccer balls (players should bring a ball to *every* session).
- Pump.
- Extra pair of shin guards (players must wear shin guards at *every* session).
- Pop-up goals (preferred).
- Whistle.
- Charged cell phone (in case of emergency).
- Training plan.

*Be familiar with your first aid kit contents so that you know what you have **and where it is** if needed.

AGE APPROPRIATE UNDERSTANDING AND APPLICATION

The following chart generalizes age characteristics of children ages 9 through 12 years of age. (Note: *All* children are unique and often chronological age can conflict with developmental age; therefore, individual application should always be considered.)

KEEP IN
MIND

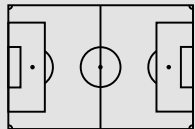

Our players are *not* mini-adults; therefore, our training sessions must be adapted to life through *their* eyes, *their* interests and most important, *their* capabilities.

AGE APPROPRIATE CHARACTERISTICS AND TRAINING ENVIRONMENTS	
10U	<p>9-12 years is the golden age for learning and the perfect age to increase focus on specific techniques and skills. It is the time for ADVENTURE!</p> <p>Physically, ages 9-10 are still in the early stages of development.</p> <p>Pre-pubescent players (9-12) are responsive to role models, friendships and peer approval.</p> <p>Players enjoy the team concept but will participate enthusiastically in competitive arenas, so 1v1 and 2v1 situations are perfect to develop individual skills. Passing technique/activities will help develop their team concept.</p>
12U	<p>Players have increased understanding of strategy and tactics so small-sided matches can help develop basic attacking and defensive principles. Players should still rotate positions to avoid early specialization (as well as participate in other activities/sports).</p> <p>Physical literacy (balance, agility, speed, coordination, etc.) improves.</p> <p>12U is the time for “polishing” the player’s technical skills.</p>

COACHING MOMENTS

FROM THE FIELD

"Football is simple; trainers (coaches) shouldn't make it so complicated."

Johan Cruyff, Dutch Soccer Legend

At the end of the day, it is the coach's job to coach! But having the content is one thing (and we are providing this for you), but knowing **how** to effectively communicate, motivate and develop your individual players is another talent.

KEEP IN MIND

Positive Coaching! Regardless of your personal approach or delivery, **Positive Instruction and Encouragement (P.I.E.)** should *always* be used to instruct and motivate your players. They will respond better to you and it will help keep AYSO a developmentally rich and positive environment.

MANAGING THE COACHING MOMENT...LESS IS MORE

Occupy a central but sideline position during training to allow a clear, panoramic view of the activity.

The coaching environment you create must be safe and conducive to learning. Players must be stimulated to learn and educational opportunities must be well thought out if you want to maximize player development. Players must be given freedom to be creative, find solutions **without** constant coaching, and ultimately learn from their mistakes. Remember, mistakes are guidelines for improvement!

It is a fine line, managing the flow of your session and finding the appropriate time to step in. Methods:

- Forced Stoppage (**freeze, get in, make your point, get out**).
- Natural Stoppage (be careful the coaching opportunity hasn't passed and the situation forgotten).
- Flow (talking as the game is playing...but **avoid** constant commentary).
- Individual Reference (pulling a player aside to make an observation).

PRESENTING YOUR COACHING POINTS

Avoid lengthy speeches! Keep instructions for activities as simple and quick as possible and limited to one point at a time. Where possible, explain in images and provide visual analogies (much easier for kids to grasp). Coaching points or instructions should be:

- Concise (broken down, simple, small pieces of information).
- Accurate.
- Relevant (to a coaching principle or objective).
- **Demonstrated** (whenever possible)!

When addressing your players, make sure **they** are not directly facing the sun.

LET THEM PLAY AND THE GAME TEACH!

KEEP IN MIND

Avoid lengthy speeches! Keep instructions for activities as simple and quick as possible.

I HEAR...

I SEE...

I DO...

I FORGET

I REMEMBER

I UNDERSTAND

VOICE

- Do consider the volume and tone of your voice.
- Avoid being monotone.
- Modulating the intensity of your voice can help emphasize your coaching points and gain the required attention.
- Always maintain control and *never* raise your voice in anger or frustration.

INDIVIDUAL COMPONENTS OF DELIVERY

Questions

Children respond enthusiastically to questions and are stimulated to find the answer. Questions can be:

- **Factual** Definitive, simple answers (*what*).
- **Conceptual** Requires a higher level of processing and thought (*how*).
- **Stimulating** Requires complex reasoning (*why*).

Commanding: Definitive, controlled, lecture (less player-centered).

Guided Discovery: Guides the player through process by posing a series of questions whose responses lead to the understanding of a concept (like detectives).

Experimentation: Cause and effect comparison (try it and see, compare).

COMPLETE SYSTEM OF DELIVERY

Say, Show, Do and Review

An effective complete teaching method for any age group:

1. **SAY:** Explain skill or technique (keep it brief especially with younger players).
2. **SHOW:** Effectively demonstrate skill or technique.
3. **DO:** Have players perform skill or technique.
4. **REVIEW:** *Observe, Correct* and *Confirm* proper technique.

Observe (silently). Instead of trying to correct immediately, let them play uninterrupted for a time (they will learn from mistakes) and take notes (preferably written), focusing on *one* effort they can improve.

Correct what you saw in terms of the player's execution, and then provide the player with attainable modifications to correct one or two deficits by once again demonstrating.

Confirm accomplishments once success is achieved! Say it out loud, so everyone can hear.

Post Session

Discussion with the players: Do not underestimate the value and impact of a positive comment or constructive feedback to a player after the training session (but keep it concise).

Review your training plan: Note what worked well and what needs to improve.

Evaluate yourself: Encourage constructive feedback from others in relation to your coaching management and session structure.

COACHING YOUR OWN CHILD

A large percentage of you will be lacing up sneakers to coach your own children and this section outlines some perspective and tips to maximize the opportunity...for you, and more importantly for your child (and the rest of the family).

KEEP IN MIND

In the blink of an eye, they are grown up and beyond our daily reach. Therefore, what an incredible opportunity to spend time in “their” world as “their” coach!

But I’ve Never Coached Or Played Soccer Before!

- It’s okay if you never played soccer or don’t know much about it! However, by reading this manual and progressing through the AYSO National Coaching Program, you **will** gather valuable tools to succeed.
- No pressure! Do not misinterpret the role you’re supposed to play. Go out to enjoy!
- Change your adult perspective and **view the game through your child’s eyes.**
- If you can create a safe, fun and developmental environment for your child and team, **encourage self-expression and mistakes (learning)**, you are already in the running for Coach of the Year.
- Fun, exercise and the chance to play soccer is what it’s all about, particularly at the younger ages.

What’s My Role As Coach?

- Maintain realistic expectations! It’s a game, a sport, a pastime. As you are likely aware, the odds are against your child making the pros; therefore, make sure your own adult expectations do not stray too far from those of your child.
- Soccer, perhaps more than any other sport, requires little teaching at the early ages. **The game itself is genuinely the best teacher.** In fact, the role of the coach in the first stages is simply to give children the opportunity to discover the game’s joys in a safe and nurturing environment.
- Generally speaking, through 10U let them play. At 12U we can expand their technical development and reading of the game.
- What you’re really doing is very similar to taking your child and his or her friends to the playground. You’re supervising soccer playtime while allowing the children to explore the fun on their own terms.
- Once you comprehend the expectations, you’ll find all aspects of the role less daunting, including the dynamics of coaching your own child.

Coach or Parent?

- When you first start coaching you may be introducing your child to a new experience other than the game: sharing the attention of mom or dad with a larger number of **other** children (while at the same time, you are trying not to show favoritism).
- The Positive Coaching Alliance (PCA) recommends you explain to your child, “I always love you and you are special to me. But when I’m coaching you, I need to be fair and treat you like all the other players. And you need to respond to me as your coach, not your dad. Do you think you can do that?”

Am I Doing Okay?

- **Avoid being harder on your own child than the other players because you’re worried about perceptions of favoritism.** No matter what you say or how you say it, your comments can often register as a personal attack because they come from dad or mom.
- Don’t be afraid to praise your child and acknowledge her strengths and accomplishments at every opportunity. As well as your child they are also a player on the team!
- A good test on how to treat your child on the soccer team is to constantly ask yourself if your reactions to your child’s play or behavior are the same as they are to your child’s teammates.
- Another peril of coaching your own children is to leave your coaching hat on when the session/match is over. Limit your post-session soccer discussions once the whistle blows. Once the topic of food is raised, it is probably time to get back to your *full-time* role.

KEEP IN
MIND

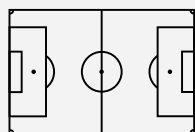

SAVOR EVERY MOMENT!

It will pass all too quickly!

AGE APPROPRIATE (PLAYER) DEVELOPMENT

FROM THE FIELD

“Learning to be a soccer athlete, there are progressive stages and if you don’t get the early stages right, *in sequence*, then you are fighting an uphill battle in developing an athlete.”

*Dave Chesler, Former U.S. Soccer Director of Coach Education
Current WNT Performance Analysis Coach*

THE SCIENCE OF AGE APPROPRIATE TRAINING

“To provide youth soccer programs *that enrich children’s lives.*”

This vision can *only* be achieved if we continually ask ourselves if the activity, method or decision will truly enrich the player’s life. To achieve this goal, our training sessions *must* be adapted to the player’s specific age and stage of development.

Technical, tactical, physical and psychosocial training components should be woven throughout each session; however, *at all-times* with deep respect to the player’s specific age *and* stage of development. At AYSO, we prioritize these important aspects as follows:

Psychosocial

Respect, motivation, confidence, cooperation, competitiveness, etc., and how these emotions and feelings impact a player’s development. Also, includes a player’s ability to reason, learn and solve problems. **At AYSO, we develop the *whole* person!**

Physical

A player’s physical attributes: speed, agility, endurance, strength and power, etc. **At AYSO, we promote a healthy lifestyle through soccer!**

Technical

A player’s ability to master ball skills, i.e., ball control, shooting, passing, etc. **At AYSO, we prioritize skill development and ball mastery.**

Tactical

A player’s capacity to use their skill and ability *within* a game environment, i.e., creating space in midfield, possession and transition, creating width, etc. **At AYSO, we educate our players on playing as part of (and within) a team dynamic.**

KEY DEVELOPMENTAL COMPONENTS IN AYSO 10U TRAINING

A TIME FOR ADVENTURE...

PSYCHOSOCIAL

- May have fear of failure, not being liked, etc.
- May blame others or make up alibis to explain their own shortcomings or mistakes.
- Enjoy talking and being with friends.
- Like to be a coach's helper.
- Feelings can be easily hurt (need reinforcement).
- Recall details with considerable accuracy.
- Understand concepts of cause and effect.
- Enjoy putting on "shows" for parents and friends.
- Willing to join in games that require a moderate degree of strategy.
- Skill building is best achieved in non-competitive games.
- Take what you show or tell them literally; so be sure to say exactly what you mean.
- Children at this age are starting to be self-critical, so make sure you are always positive in your approach.

PHYSICAL

- Still in the early stages of physical development.
- Will participate enthusiastically in competitive activities.
- Will practice new skills repeatedly to perfect them.
- Will likely experience lowered frequency of minor illnesses.

TECHNICAL

- Instep kick
- Dribbling
- Throw-in
- Inside of the foot-push pass
- Inside of the foot-ball control
- Top of the thigh-ball control
- Juggling
- Tackling-front block
- Goalkeeping

SCORE	Maintain Possession	Advance Ball	Prevent Scoring	Regain Possession	Delay Opponents
BASED ON A PLAYER'S RELATIVE POSITION TO:					
The Ball	Teammates	Opponents	Location on Field	Time in Game	

However, like most aspects of the game, **objectives vary depending on player age and stage of development:**

ATTACKING OBJECTIVES (BY AGE)

	6U	8U	10U	12U
Score	√	√	√	√
Keep Possession		√	√	√
Advance Ball			√	√

DEFENDING OBJECTIVES (BY AGE)

	6U	8U	10U	12U
Prevent Scoring	√	√	√	√
Regain Possession		√	√	√
Delay Opponents			√	√

PRINCIPLES OF PLAY

The Principles of Play are used to **achieve** the Objectives of the Game.

There are ten **Principles of Play** utilized in soccer — five **attacking** and five **defending** principles, each introduced at a specific age and stage of development. **10U Principles of Play are highlighted in the chart below:**

For each attacking principle, there is a defending principle to counter it.	
ATTACKING	countered by DEFENDING
Penetration 10U v Advancing the ball past opposing players by dribbling, passing and shooting.	Pressure (delay) 10U v Pressuring opponents in possession by giving immediate chase, denying their options, i.e., dribbling, passing, shooting, etc., or delaying the opponents in order to regain possession.
Support 10U v Supporting teammates by creating safe options for the player with the ball.	Cover 10U v Supporting the player(s) challenging the ball in case they are beaten. Limits options for 1st attacker.
Mobility 10U v Players interchanging positions (filling in for one another as needed) and moving off the ball. Unbalancing defense, creating numerical advantages and thereby attacking/scoring opportunities.	Balance 10U v Reading the attack and providing an equal or greater number of defenders than attackers at the point of attack, while simultaneously covering the vital area near the goal.
Width 10U v Kin of mobility. Attacking on a broad front (players spread out) stretches and isolates the defense and creates space for players to advance.	Compactness 10U v Compressing or restricting the space the attacking team has by “shepherding” them into a confined area making it easier to defend and regain possession of the ball.
Creativity Creating opportunities for advancement, possession and scoring by utilizing individual skills such as feints and fakes.	Control/restraint (composure) Staying calm, disciplined and organized in the face of an attack by maintaining proper defensive techniques and positioning.

Remember, due to the fluid nature of soccer, players’ roles are in constant rotation, and supporting players can be behind, to the side, or in advance of the ball.

The only players with definitive roles are the 1st attacker and 1st defender.

Additional roles (support, mobility, width, creativity **and** cover, balance, compactness, control/restraint) can be provided by numerous players.

Ultimately, players must understand **all** attacking and defending roles to truly master the game.

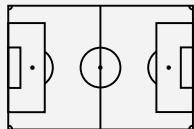

KEEP IN MIND

In soccer there are no *absolutely* correct decisions. You cannot always judge how well your team is playing by the results of the game. You need to have a standard method of assessing your team form moment to moment. The **Principles of Play** can be your measuring stick.

POSITIONS

FROM THE FIELD

“The Dutch change positions quicker than you can make a cup of coffee.”

Paolo Rossi, Italian Soccer Legend

At AYSO we do not formally introduce position-specific coaching until **12U**. There is no harm *familiarizing* your players with the basic responsibility of each position at 10U, but this does NOT mean you have players rooted to one spot covering their positions, while the game develops...without them! How many times have you seen young defenders being contained in their “own” half because they are not permitted to cross the half-way line? **Frankly, this needs to stop as it is *not* conducive to player development and impacts the player’s overall experience!**

Regardless of age, *all* outfield players should be encouraged to defend AND attack. Players should be given the freedom to be involved in the flow of the game, but empowered with the responsibility to cover their position (or have someone else cover it) if they choose to explore. Your center-half should be encouraged to score goals, your striker, encouraged to chase back and stop goal scoring chances.

Throughout the season, try to let all players experience all field positions (not in same game). Allow players to play one, or at most, two positions in a single game giving them some time to familiarize themselves and get comfortable with the position. This also applies to the goalkeeper position so that *all* children get a chance to develop their field skills.

Everyone Plays! Remember, every child in AYSO must play 1/2 of every game; however, we recommend strongly that each player play 3/4 of every game *before* any player plays a full game. Children of all abilities improve when they play and the more they play, the better they get.

Soccer has four basic positions: **goalkeepers, defenders, midfielders, and strikers**. There are numerous specialized names for each: sweeper, forward, wing, outside back, center back, stopper, etc. We will concentrate only on the four *basic* positions whose *general* responsibilities are outlined below:

Position	Own Team with Ball	Other Team with Ball
Goalkeepers	Begin the Attack	Stop Scoring Attempt
Defenders	Maintain Possession Advance the Ball	Stop Scoring Attempt Regain Possession
Midfielders	Advance the Ball Maintain Possession	Delay Attack Regain Possession
Strikers	Score Advance the Ball Maintain Possession	Regain Possession Delay Attack

KEEP IN MIND

All players should be encouraged to defend and attack, and given the freedom and responsibility to be involved in the flow of the game.

SYSTEMS OF PLAY (FORMATIONS)

Refers to the formation of positions that a team engages during a game, i.e., 1-3-3-2 = 1 goalkeeper, 3 defenders, 3 midfielders and 2 strikers). **Age and stage of development should influence what and when to introduce shape and organization of play.**

Teaching players about systems of play, along with the principles and objectives of the game will begin to open them up to the concepts of **shape** and **organization** (*again, consider age and stage of development*).

- Systems are numbered with the first number indicating the goalkeeper, then the number of defenders, then midfielders, then forwards, i.e., 1-3-3-2 means: 1 goalkeeper, 3 defenders, 3 midfielders and 2 strikers.
- Players during a game should not be positioned in straight lines across the field. They fill general areas, **not specific spots**. Emphasize this to your players.

Do not be discouraged if your team plays as a herd at times with little or no organization (especially at the younger ages). Player maturity, skill and an understanding of the objectives, principles and systems will slowly but surely alleviate this problem. Guaranteed!

KEEP IN MIND

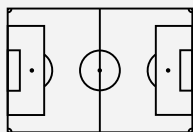

No system of play will overcome a lack of basic technique or skill. Systems of play must be appropriate for the players on your team. Therefore, find a system of play that fits the ability of your players instead of trying to fit **your players** into a particular system.

Soccer is a free-flowing and dynamic game (not static). Players must be encouraged and given the freedom to move relative to the ball, their teammates, their opponents, time in the game and the goal.

STYLE OF PLAY

FROM THE FIELD

"My life and the *beautiful* game."

Pele

As a major cornerstone to the game in this country, we have a responsibility to help develop our players in a manner consistent with our national teams and ultimately help prepare our players to reach and play at their desired potential.

Therefore, we have decided to share an organizational perspective, not a mandate, but a belief in how the game should be played.

At AYSO, we encourage player freedom, creativity and expression (remember our quest to enrich lives). We believe the game should be played with more intent, more purpose, using the ball to achieve our objectives... not relying on the luck of the bounce.

We should strive to make the ball do the work by keeping it moving, maintaining possession and quickly and proactively transitioning to create goal-scoring opportunities. All players attack when we have the ball, all players defend when we lose the ball. Our players should be technically efficient to adapt their role to whatever the coach requires to best suit the team.

Formations should be tailored to your specific group of players; however, two line-ups to consider for the 7 v 7 game are:

1-2-3-1 and 1-3-2-1. In both cases, the two outside players in the line of three should provide width and work both offensively and defensively.

In short, we want to create exciting soccer players who can play exciting soccer. To summarize:

- TECHNICALLY EFFICIENT.
- INDIVIDUAL CREATIVITY AND EXPRESSION.
- DELIBERATE!
- PURPOSEFUL AND CONTROLLED POSSESSION.
- FAST PENETRATION!
- QUICK TRANSITION.
- TEAM UNITY AND TEAM IMPACT.
- ADAPTABLE!

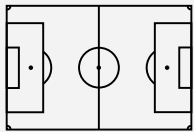

KEEP IN MIND

At AYSO, we urge you to consider a style of play that encourages player freedom and expression (remember our quest to *enrich lives*); however, in reality, we simply want for you and your players to have the most enjoyment you possibly can from this wonderful game, *whatever* style you choose to play.

QUALITY TRAINING

FROM THE FIELD

“The coach has to establish a playing environment where everyone is eager to train and perform at their best. Each player should understand what they should bring to each session, i.e., set of standards or expectations. Once everyone on the team understands their role, learning (and fun) develop naturally.”

John Kerr, Head Men’s Coach, Duke University

THE COACHING CYCLE

- Coaching involves **OBSERVING** and **EVALUATING** player and team performance to determine what needs to be worked on (**ORGANIZING** and **COACHING**) during training in order to maximize (**player**) **DEVELOPMENT**.
- Training components (psychosocial, physical, technical, tactical) are then incorporated into a training session (plan) to develop and improve the player’s competence within a match environment.
- ORGANIZE/COACH:** Training sessions are comprised of: (free play); warm-up; activities I & II; small-sided matches & cool-down.
- Principles of Play** should be considered and applied throughout the session.
- Adjusting **Speed, Space, Opposition** controls the intensity of an activity.
- Coach using sound methodology (P.I.E., Say, Show, Do, Review, etc.) to challenge, increase success and develop players.
- DEVELOPMENT:** Players improved competence within match environment (finishing; short/long play; short combined with long play; ability to keep possession; risk; transition).
- Observe and evaluate** performance and select elements for the next training session.

KEEP IN MIND

Coaching involves **OBSERVING** and **EVALUATING** player and team performance to determine what needs to be worked on (**ORGANIZING** and **COACHING**) during training in order to maximize (**player**) **DEVELOPMENT**.

DURATION AND FREQUENCY OF TRAINING SESSIONS

KEEP IN MIND

It is widely accepted that it takes 10,000 hours of *deep* practice to learn a new skill. However, the real lesson of the 10,000 hours rule is *not* about the quantity; it's about the *quality* of the practice and the environment in which it takes place.

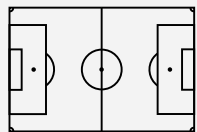

It is important to maximize the learning opportunity without *overdoing* duration or frequency. Exhaustion and fatigue can be detrimental to learning (slows brain, lessens focus, increases errors) so it is wise to consider you training in terms of the number of quality repetitions or touches as opposed to time.

AYSO National Coaching Program Training Duration & Frequency Recommendations

Age Group	Frequency	Duration
6U	One Activity Session/ Jamboree per Week (<i>includes</i> 25 min. game)	1 Hour
8U	Once Per Week, <i>Plus</i> Game	1 Hour
10U	Twice Per Week, <i>Plus</i> Game	1 Hour
12U	Twice Per Week, <i>Plus</i> Game	1 Hour

SMALL-SIDED MATCHES

FROM THE FIELD

"The need for parents to see their children play in 11-on-11 tournaments from a young age instead of insisting on more small-sided [matches] and practices to develop technical skills produces great athletes but limited soccer players. Parents need to become a little less shortsighted."

Carli Lloyd, U.S. Women's National Team referencing the youth soccer culture for her team's technical shortcomings

Youth players need to practice in a match-like environment, which provides *numerous* opportunities to practice and **repeat a skill**; not one *possible* chance every few minutes (like full-sided play can often present). Therefore, the concentrated ebb and flow of small-sided matches create the optimal learning environment for young players to develop.

There are unlimited benefits of small-sided matches:

- Children learn more when the ratio of coach to player is reduced.
- Maximize ball contact, involvement, and mistakes (markers for improvement).
- Increase scoring opportunities.
- Maximize attacking and defending play.
- Maximize transitions and decision-making situations.
- Present more coaching opportunities (observation and analysis).
- Excitement and fun!

To cultivate the numerous benefits of small-sided matches and maximize Player Development, AYSO has carefully balanced the number of players on the field and the number of players on the roster by age group.

AYSO National Coaching Program
In-Season Play Recommendations

Age	Players Per Team	Max on Roster	Goalkeepers
6U	4	6	No
8U	4	6	No
10U	7	10	Yes
12U	9	12	Yes

PROGRESSIVE (BUILD UP) TRAINING

It is essential to technical and tactical development to scaffold player challenges by adding different factors into our training sessions. In general, sessions should progress from:

SIMPLE TO COMPLEX and from **UNOPPOSED TO OPPOSED**

Progression of Technical Build-Up

- Technique demonstrated with *no pressure*.
- Technique demonstrated while *under pressure* (passive to full, integrating decision making).
- Technique demonstrated in match-like situation.

Match Pressure

Training should simulate match conditions as much as possible (most effectively accomplished through small-sided matches). Control methods used to manipulate the playing environment:

- Changing the physical **SPACE** available to players (increasing/decreasing size of playing area).
- Varying the **SPEED** of the play (adding time constraints or number of touches).
- Introducing and varying the amount of **OPPOSITION** (numbers up or down, opposition/defenders are bunnies and can only hop, etc.).

KEEP IN
MIND

Players must **FIRST** be successful with a technique to build success and confidence *before* you progress the activity (progression or build up should be paced with your player’s success rate). Alternatively, manipulating **SPEED, SPACE** or **OPPOSITION** can help *enable* your players to succeed (i.e., increasing space, touches or numbers).

TOPIC BASED TRAINING

Repetition is a key component to skill development; therefore, just like school, rather than bombard players with multiple topics per lesson, focusing on one topic, i.e., dribbling, provides the maximum opportunity to achieve mastery and success.

UNEVEN TRAINING NUMBERS

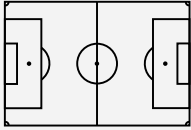

Whether it is due to your age group or attendance at training, a few suggestions on how to accommodate the possible discrepancy, **minimize isolation** and increase functionality:

- Rotate players in and out (players rest, watch, cheer, stretch).
- Pair up (players participate in activity but take turns with a partner).
- Play as a neutral (can play for either team).
- Play as two players (in numbered activities, i.e., Steven is 1 *and* 3).
- Help serve or retrieve balls.
- Have players help you demonstrate or help make small observations, etc. (Children can gain a deeper understanding of the skill if they have to explain it to others.)
- Emphasize number up number down practices (5 v 2, etc.).
- Weigh the challenge (lower number team has different goal, i.e., less touches, etc.).

BUILDING YOUR 10U SESSION

FROM THE FIELD

“We (the U.S.) are producing players who are *over-coached* and *predictable* as opposed to players who can caress the ball and make you sit up and take notice. Coaches need to be secure with themselves and not allow winning games to validate their importance in the lives of their players.”

Sonny Askew, former professional player and current youth coach, Baltimore, MD

FREE PLAY

In our current climate of over-organizing and over-coaching, Free Play is a useful method for players to develop in a natural and safe environment (like playing in the park with your buddies).

Free Play can be used as a pre-warm up upon arrival to prepare players for the technical warm up that will lead to the session’s tactical work. For younger players, Free Play can be used to evaluate their technical level so you have a logical starting point when the actual session begins.

Free Play can also be used in an activity or scrimmage to simply encourage player’s creativity, freedom and expression, not to mention learning through mistakes. In general, Free Play has simple limitations:

- A situation where individuals play *without* restrictions on time or space, or coaching.
- Players are given *general* directions on what they should attempt to accomplish and then left on their own.
- Free play allows players to *develop natural abilities* in a relaxed, coach-free environment.

KEEP IN MIND

Ultimately the use of Free Play in our sessions will remind the players of the fun and intrinsic benefit of practicing freely on their own (i.e., juggling or passing against a wall) or pick-up games with buddies at the park...simply playing!
