

Safety Rules for:

PARENTS/CAREGIVERS/SPECTATORS

All PARENTS/CAREGIVERS...

- Are REQUIRED to immediately report a positive COVID-19 test for their child or if their child has had exposure to a COVID-19 positive individual (either within their family or social bubble or otherwise), to the child's coach. The coach will follow reporting protocols while maintaining confidentiality of the affected player.

For Every Practice Session/Game:

- Must complete the COVID 19 Questionnaire with their player(s) prior to every practice session/game. This will be the responsibility of the parent/caregiver, not the coach. If the answer is 'YES' to any questions on the COVID-19 Questionnaire, the player has a temperature of 100.4F or greater, or feels unwell for any reason, the child will not be allowed to participate, should be kept at home and not come to the field.
- Parents/Spectators are requested to wear masks while on the field and to maintain social distancing from other household members
