

TSS PICTURE DAY

Coach could you please:

- Please make sure your team knows their picture time. This lists your scheduled picture date below. Having teams not know their picture time can slow the process down on picture day. It makes it go much smoother if parents are aware of their picture. NFF **Requests** all Teams to get pictures.
- We will continue View First this spring. Meaning, we will take multiple pictures of your players, put them online, send an alert to each parent and let them know they can go online and view their pictures and pick which they like best to order. They will also be able to choose the background. They do not need to order before they see their pictures.
- All **COACHES** receive a free digital download of a picture with them and their child that will be added to their picture order. All we ask is that you check in at the picture day tent, we will give you a roster of your team, ask you to gather your team and when you are all present, line them up in the order of your roster and bring them up to the tent. It takes approximately 5 minutes to do a team. You will get a coupon to use for that free image download from the photographer after you take your picture with your child.
- If a child is late send them over to the tent and we will take their picture and get them added to the team picture. If they are absent let them know they can make up at one the other NFF locations to make it into **their** team picture.
- If you or any of the parents have any questions please free to call us and we would love to answer any questions. We look forward to seeing you on picture day. (309)721-1498
