

April 19, 2020

Hello SPLL Families!

We hope that everyone is remaining safe, healthy and happy during this extended time with no Little League. We sure miss everyone - and we would LOVE nothing more than to be on the fields playing ball right now! We want to provide you with an update on our current delayed-season, given many of the recent announcements and the continued restrictions on public gatherings.

We continue to follow the recommendations of the CDC, Little League International, and the State of Michigan as it relates to the COVID-19 pandemic. As we shared previously, we continue to be in a holding-position **until at least May 11, 2020** per Little League International guidelines.

The SPLL Board has met (virtually) and we are optimistic we will be able to salvage a season for softball and baseball should restrictions be lifted, with a possible season end around late-June. Of course, there are LOTS of unknowns, and we're making many assumptions when we look at all of our options.

We would love nothing more than to have a season where our children can PLAY BALL - however, we will never sacrifice player or family safety for the game we love. We promise to be back in touch in the next 2-3 weeks with any further updates or decisions.

Should you be in a financial situation where you need a refund of your registration, please [contact us](#) ASAP.

Thank you for your patience - we truly appreciate everyone.
~ SPLL Board of Directors
