

Walgreens: Covid 19

<https://www.walgreens.com/findcare/covid19/testing>

There are other testing sites available (CVS being one). This seems the easiest to schedule. They are testing 7 days a week but they said they were very busy.

FAQ

No-Cost COVID-19 Testing for Ages 3+

Walgreens is offering no-cost, contactless COVID-19 testing for patients age 3 and up at select locations, in partnership with the PWNHealth provider network.* Use the map below to find testing near you.

How the COVID-19 testing process works

1. Complete a quick questionnaire.

2. Choose a location and time for your COVID-19 test (based on the type of test you want).

3. Go to the testing location and remain in your vehicle with the window rolled up.

4. Show your confirmation email, a valid state ID or driver's license, and insurance card or voucher.

5. Perform the nasal swab yourself under the direction of a pharmacy team member. Patients ages 3-18 will need a parent or legal guardian while they self-administer the COVID-19 test.

6. Get results from PWNHealth.*

3

You will need to create an account at Walgreen.com (if you don't already have one). Once you have created an account you can schedule your appointment.
