
**YOUTH AND COMMUNITY SPORTS
PRE-PARTICIPATION PHYSICAL EVALUATION**

PHYSICAL EVALUATION: Prior to any student participating in any Practices, Scrimmages, and/or YOUTH/COMMUNITY ORGANIZATION'S Games, the student is required to (1) complete a Pre-Participation Physical Evaluation (PPE); and (2) have the appropriate person(s) complete the first two Sections of the PPE Form (parent/guardian). Upon completion of Page 1 and 2 by the parent/guardian; and Page 3 by an Authorized Medical Examiner (AME), those Sections must be turned in to the YOUTH/COMMUNITY ORGANIZATION'S Medical Representative for retention by the board. The PPE may not be authorized earlier than June 1st and shall be effective up to including the YOUTH/COMMUNITY ORGANIZATION'S season (includes pre-season, in-season and post-season).

PERSONAL AND EMERGENCY INFORMATION

PERSONAL INFORMATION

Student's Name _____ Male/Female (circle one)

Date of Student's Birth: ___/___/_____ Age of Student on Last Birthday: ___ Grade for Current School Year: ___

Current Physical Address _____

Current Home Phone # () _____ Parent/Guardian Current Cellular Phone # () _____

Fall Sport(s): _____ Winter Sport(s): _____ Spring Sport(s): _____

EMERGENCY INFORMATION

Parent's/Guardian's Name _____ Relationship _____

Address _____ Emergency Contact Telephone # () _____

Secondary Emergency Contact Person's Name _____ Relationship _____

Address _____ Emergency Contact Telephone # () _____

Medical Insurance Carrier _____ Policy Number _____

Address _____ Telephone # () _____

Family Physician's Name _____, MD or DO (circle one)

Address _____ Telephone # () _____

Student's Allergies _____

Student's Health Condition(s) of Which an Emergency Physician Should be Aware _____

Student's Prescription Medications _____

Permission to administer emergency medical care: I consent for an emergency medical care provider to administer any emergency medical care deemed advisable to the welfare of the herein named student while the student is practicing for or participating in Inter-Squad Practices, Scrimmages, and/or Contests. Further, this authorization permits, if reasonable efforts to contact me have been unsuccessful, physicians to hospitalize, secure appropriate consultation, to order injections, anesthesia (local, general, or both) or surgery for the herein named student. I hereby agree to pay for physicians' and/or surgeons' fees, hospital charges, and related expenses for such emergency medical care.

Parent's/Guardian's Signature _____ Date ___/___/___

UNDERSTANDING OF RISK OF CONCUSSION AND TRAUMATIC BRAIN INJURY

What is a concussion?

A concussion is a brain injury that:

- Is caused by a bump, blow, or jolt to the head or body.
- Can change the way a student's brain normally works.
- Can occur during Practices and/or Contests in any sport.
- Can happen even if a student has not lost consciousness.
- Can be serious even if a student has just been "dinged" or "had their bell rung."

All concussions are serious. A concussion can affect a student's ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most students with a concussion get better, but it is important to give the concussed student's brain time to heal.

What are the symptoms of a concussion?

Concussions cannot be seen; however, in a potentially concussed student, **one or more** of the symptoms listed below may become apparent and/or that the student "doesn't feel right" soon after, a few days after, or even weeks after the injury.

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light or noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion

What should students do if they believe that they or someone else may have a concussion?

- **Students feeling any of the symptoms set forth above should immediately tell their Coach and their parents.** Also, if they notice any teammate evidencing such symptoms, they should immediately tell their Coach.
- **The student should be evaluated.** A licensed physician of medicine or osteopathic medicine (MD or DO), sufficiently familiar with current concussion management, should examine the student, determine whether the student has a concussion, and determine when the student is cleared to return to participate in interscholastic athletics.
- **Concussed students should give themselves time to get better.** If a student has sustained a concussion, the student's brain needs time to heal. While a concussed student's brain is still healing, that student is much more likely to have another concussion. Repeat concussions can increase the time it takes for an already concussed student to recover and may cause more damage to that student's brain. Such damage can have long term consequences. It is important that a concussed student rest and not return to play until the student receives permission from an MD or DO, sufficiently familiar with current concussion management, that the student is symptom-free.

How can students prevent a concussion? Every sport is different, but there are steps students can take to protect themselves.

- Use the proper sports equipment, including personal protective equipment. For equipment to properly protect a student, it must be:
 - The right equipment for the sport, position, or activity;
 - Worn correctly and the correct size and fit; and
 - Used every time the student Practices and/or competes.
- Follow the Coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.

If a student believes they may have a concussion: Don't hide it. Report it. Take time to recover.

I hereby acknowledge that I am familiar with the nature and risk of concussion and traumatic brain injury while participating in interscholastic athletics, including the risks associated with continuing to compete after a concussion or traumatic brain injury.

Parent's/Guardian's Signature _____ Date ____/____/____

UNDERSTANDING OF SUDDEN CARDIAC ARREST SYMPTOMS AND WARNING SIGNS

What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

How common is sudden cardiac arrest in the United States?

There are about 300,000 cardiac arrests outside hospitals each year. About 2,000 patients under 25 die of SCA each year.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as:

- dizziness
- lightheadedness
- shortness of breath
- difficulty breathing
- racing or fluttering heartbeat (palpitations)
- syncope (fainting)
- fatigue (extreme tiredness)
- weakness
- nausea
- vomiting
- chest pains

These symptoms can be unclear and confusing in athletes. Often, people confuse these warning signs with physical exhaustion. SCA can be prevented if the underlying causes can be diagnosed and treated.

What are the risks of practicing or playing after experiencing these symptoms?

There are risks associated with continuing to practice or play after experiencing these symptoms. When the heart stops, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who have SCA die from it.

Act 59 – the Sudden Cardiac Arrest Prevention Act (the Act)

The Act is intended to keep student-athletes safe while practicing or playing. The requirements of the Act are:

Information about SCA symptoms and warning signs.

- Every student-athlete and their parent or guardian must read and sign this form. It must be returned to the school before participation in any athletic activity. A new form must be signed and returned each school year.
- Schools may *also* hold informational meetings. The meetings can occur before each athletic season. Meetings may include student-athletes, parents, coaches and school officials. Schools may also want to include doctors, nurses, and athletic trainers.

Removal from play/return to play

- Any student-athlete who has signs or symptoms of SCA must be removed from play. The symptoms can happen before, during, or after activity. Play includes all athletic activity.
- Before returning to play, the athlete must be evaluated. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner, or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed and understand the symptoms and warning signs of SCA.

Better. Together.

**AUTHORIZATION FOR DISCLOSURE OF PROTECTED HEALTH INFORMATION
TO SCHOOLS AND/OR TO ANY FAMILY MEMBERS**

I authorize Coordinated Health Holding Company LLC, CHS Professional Practice, Inc., CH Hospital of Allentown, LLC, Coordinated Health Orthopedic Hospital, LLC, and/or Coordinated Health of Greater New Jersey, LLC, their affiliates, and/or any assistants that they may select (which may include physicians, residents, fellows, medical students, physician’s assistants, nurses, technicians administrators, and/or other employees) (collectively and individually known as “Coordinated Health”) to disclose the protected health information referenced in this Authorization to athletic directors, coaches, nurses, guidance counselors, teachers, and/or administrators at the following school and/or to any family members of the below identified student-athlete who are present at an event where the student-athlete is injured and/or receives care from a Coordinated Health provider:

Print Name of School and/or Specific Family Members

The protected health information to be disclosed is the entire designated record set and/or information contained therein, which may include (but is not limited to) historical, examination, diagnostic testing and results thereof, drug/alcohol, mental health and/or HIV information and/or drug/alcohol testing results, except the following: NONE.

If an exception applies, cross out “None” and specify the exception(s)

This protected health information is being disclosed at the request of the undersigned.

This Authorization shall be in effect for twelve (12) months from the below date. I understand that I have the right to revoke this Authorization in writing at any time by sending written notification to: Coordinated Health Privacy Officer, Coordinated Health, 3435 Winchester Rd., Allentown, PA 18104. I understand that Coordinated Health shall need a reasonable time to process my revocation. I agree that five (5) business days after Coordinated Health receives said revocation is a reasonable period of time for Coordinated Health to process my revocation. Consequently, I understand that my revocation will not be effective until five (5) business days after it is received by Coordinated Health.

I understand that Coordinated Health may condition my examination/evaluation on whether I execute this Authorization if the primary purpose of the creation of this protected health information is for disclosure to the aforesaid school (e.g., for participation in athletics). Otherwise, Coordinated Health shall not condition its medical care of the below identified patient on whether I execute this Authorization.

I understand that information used or disclosed pursuant to this Authorization may be used or disclosed by the recipient and may no longer be protected by Federal or State law.

I hereby release Coordinated Health and/or their officers, representatives, employees and/or agents from any and all claims related to their use or disclosure of information pursuant to this Authorization. This release shall apply to my heirs, beneficiaries, successors and/or assignees.

By my signature below, I acknowledge that I have received a copy of this document and a copy may be used as if it were an original.
