## Entry-Level Diamond Skills League!

- Terrific Diamond Skills Learning Program for New Players!
- Games are Fast-Paced & FUN!
- Active and Inclusive Environment
- Emphasis on Teamwork
- Progressive Practice/Game Structure

### “Quick Baseball” A great way to learn on the diamond!

“Where’s first base? What’s a double? What’s the right way to throw a ball or field a grounder?”

Each season those questions and many, many more are asked by anxious youngsters who are stepping onto the diamond for the very first time.

As a parent, you watch nervously, hoping your child will “get it” before the season begins. But more than anything, you just want them to enjoy the sport and thrive, not to be bored or intimidated.

### Practices and Games focus on building skills and having fun

Welcome to EL1 Quickball Entry Level!

Focusing on instruction in a fun, inclusive way, Quickball teaches baseball and softball basics in a stress-free environment.

Players of all skill levels learn and contribute. Each child is engaged and physically active while discovering the benefits of team play.

And all players gain valuable knowledge that will help them as they experience fun on the diamond!

# What Quickball Entry Level teaches...

## Fundamentals

“Enjoyable fundamentals.” That is the easiest way to describe Quickball Entry Level, an exciting “First Pitch” sports program created for children who are just beginning to explore the games of baseball and softball. Each time a player steps onto the field, he or she will learn about the game and then play a game. Skills stations focus on the proper way to execute all essential diamond skills!

---

## Hustle!

Quickball literally turns our pastime into fasttime! Up-tempo skills stations and high-speed game action increase player movement and keep everyone on their toes. Each batter learns the correct way to hustle out a single, double, triple and home run. Fielders stay active by rotating positions and handling specific fielding assignments. Team success — on offense and defense — revolves around hustle!

---

## Active Teamwork

With today’s kids getting involved in sports programs earlier than ever, it’s easy for them to become bored and uninterested when practices and games are slow and stagnant. Quickball solves that problem through the use of revolutionary concepts such as rapid rotation, two-way scoring and timed stations that introduce something new each week. These concepts teach the game in a whole new way.

---

## Fun!

There is no reason to participate in a youth sports program if you’re not having fun. In Quickball, fun is the top priority. Kids of all skill levels contribute and the focus of each game is enjoyment — for the players and their parents!
