

Operation Standards and Resources

Operating standards and resources are created for the operational efficiency of the district. When appropriate, those documents requiring approval of the District Executive Board or District President's include the approval date and body granting approval.

Interleague and or combined teams (multiple teams entered) Protocol

- A league that has more than one regular season team should divide the teams evenly. There should not be a tournament team and a non-tournament team or a 12-year old team and an 11-year old team. One team should not have more than 60% tournament players on the team.
- Leagues cannot move players up or down in order to create a single regular season team that is a super team.
- Remember that players can play up to help fill out rosters and create equal teams. Players can be brought up from the minor leagues to fill temporary roster spots. They must have originally signed up and attended a tryout for evaluation.
