II. Department Reports

- **Treasurer's Report:** Andrea Alfieri presented the financial report, noting strong account balances, significant growth over prior monthly totals, full payment of seasonal uniform invoices, ongoing umpire fee disbursements, strong opening-night concession receipts, and settled expenses for commercial hood cleaning, health permits, food vendor invoices, and ice machine repairs.
- **Little League:** Paul Alfieri reported on league security and administrative policies, confirming that game schedules and rosters remain restricted to authenticated account holders to protect player safety and confidentiality. Registration workflows for the upcoming season will require parents to enroll players strictly by Little League Age rather than school grade to streamline division placement following player drafts. An early-bird registration window is planned for June 1–30 to lock in current-season rates and accelerate early operating funds for bulk purchasing, prior to standard registration reopening from October 1 through January 31. Paul Alfieri also summarized a presentation delivered to the Lawrence Township Town Council on March 21 highlighting strategic initiatives to support youth baseball growth across the community.
- **Softball:** Jake Zalaznick reported that the division fielded four teams across the Rookies, Minors (two teams), and Majors divisions, with the season-opening game scheduled for April 13 on Colavita Field.
- **Senior League:** Carly Vichroski reported that Babe Ruth reached maximum capacity with 32 registered players across two teams, with practices underway and uniform distribution in progress.
- **Competitive Travel:** Matt Heady reported that teams are competing across USABL spring divisions following the season launch on April 2, noting active games for Matt Heady's, Dave Shockey's, and the 12U rosters, while the 15U squad will focus exclusively on summer tournament competition.
- **Snack Shack:** Andrea Alfieri reported that the concession stand passed all municipal health and safety inspections and is ready for full operations. Facility updates include a repaired ice machine, kitchen equipment additions, and expanded integration of the Clover point-of-sale system to manage 100% cashless transactions, inventory levels, and peak sales tracking.
