Dear Little League Volunteers,

With the news of the increasing spread of the coronavirus (COVID-19), we wanted to contact you all directly to inform you that we are taking this situation very seriously. We are monitoring the situation closely, and we are advising all our leagues to follow the guidelines set by the [World Health Organization, Centers for Disease Control and Prevention \(CDC\)](#), your state's public health department (click here [for a listing of state public health departments](#)), and other county and/or local authorities including area school districts and government agencies.

We encourage all those that are actively participating in their Little League seasons – including players, volunteers, families, and fans – to follow the best practices [as outlined by the CDC](#), which include washing hands often with soap and water for at least 20 seconds (if soap and water are not available, use alcohol-based hand sanitizer); avoid touching your eyes, nose, and mouth with unwashed hands; and avoid close contact with people who are sick. We would also encourage you all to limit close, physical contact with others (including shaking hands). [Click here to learn more about the CDC recommendations.](#)

Leagues should consult the appropriate county and/or local authorities regarding recommendations on how to proceed with large gatherings of people.

Also, if you or your child are ill; have a fever, cough, or respiratory condition; have a compromised immune system; are in any other group that may be at an increased risk of contracting a virus like the coronavirus; or have recently traveled to a country listed on the CDC's Risk Assessment by Country, we encourage you or your child to refrain from Little League-related activities until cleared by your healthcare provider.

Local Little League programs are encouraged to exercise utmost precaution following the guidance of local, state and federal health agencies. In addition, cleaning and sanitizing hard surfaces and shared equipment that your league utilizes; tipping caps instead of shaking hands at the end of a game; making sure all players have their own water/drink bottles and are not sharing; and, if any volunteers are uncomfortable or cannot attend a league or district
