

## **50% Off Driveline Youth Assessment for Vashon Youth Baseball Families**

*Driveline has trained MVP's, Cy Young winners, and hundreds of MLB players. We're the best in the world at player development.*

*Now we're offering Vashon Youth Baseball families a 50% discount on our 90-minute youth assessment for players ages 9-14. And it all happens in our Kent, Washington facility!*

*Here's what happens:*

**Hitting:** *We measure how hard your kid hits the ball and how fast they swing. You'll see how they compare to other players their age and what will add the most power to their swing.*

**Throwing:** *We measure how fast they throw and use motion capture to show exactly what's working with their mechanics and what's holding them back.*

**Athleticism:** *We test players' explosiveness and coordination. You'll see how they stack up against the competition they'll face next year.*

*You get a complete report within a week: written assessment overview, video from the assessment, peer rankings, and the specific drills that will make the biggest difference.*

**Why it matters:** *This is about building skills that will set your kid up for success in high school and beyond - and it's fun!*
