

Hobb Engler Little League would like to thank you for taking the time to honestly fill out the evaluation form for your players. The evaluation form is essential in helping us prepare for each season season. This enables us to place all players in the proper level where they will not only enjoy the season, but also play at the level where they will benefit the most.

Please rate based on the HE~LL AGE appropriate standards:

Level	Definition
1	Player has challenges at this skill
2	Player is performing this skill slightly below average at his age level
3	Player is performing this skill at an average level and is at par with others in this age group.
4	Player is performing this skill at an above average level for his age
5	Player excels at this skill and would probably play competitively on an All Star team

For more clarifications on the age level standards please see our Evaluations Standards document.
