BASIC INSTRUCTIONS TO UMPIRES WORKING THE FOUR MAN SYSTEM

1	With no runners on base, 1 st and 3 rd base umpires are to position themselves with both feet in foul territory.
2	One umpire will go out on all fly balls and line drives to the outfield, as well as on all batted balls that have potential for trouble (out of play areas, spectator interference, etc.). Outfield coverage is not required on line drives in the gap that are immediately read as not catchable and are not susceptible to trouble such as spectator interference or a ground rule double.
3	Umpires going out on fly balls/line drives to the outfield should go out as far as possible, but are cautioned to be stopped when making calls.
4	If an umpire goes out, that umpire does not return to the infield until the play is completed.
5	Whenever runner(s) are on base (other than a runner on 3 rd base only), U2 will set up inside at 2 nd base. U2 may work on either side of 2 nd base; depending on which side the umpire feels more comfortable.
6	Umpires working inside at 2 nd base will not go out on fly balls/line drives to the outfield.
7	Upon completion of a play where an umpire goes out on a ball, the covering umpire should not release until the umpire who went out has returned and assumed responsibility of the runner.
8	Remember the adage, “Vacate and Occupy.” Whenever an umpire <i>vacates</i> his designated base, another umpire must <i>occupy</i> that base.

BASIC PRECEPTS FOR ANY UMPIRING SYSTEM

1	Plate umpire is responsible for giving the pre-game conference. Follow an established, orderly progression starting with fair/foul responsibilities, fly ball coverage in infield and outfield, signals and positioning. An hour is not too long.
2	No umpire needs call (voice or mechanic) the obvious foul ball and the call, when made, is never echoed by other umpires.
3	Foul balls off the batter whilst in the batter’s box may require base umpire(s) to make the call. However, WAIT for the plate umpire to make the call and then if you are certain the batted ball was fouled off the batter in the box, make the call - loud.
4	The umpire that will make the fair/foul call is the same umpire that will make the catch/no-catch call.
5	Anytime a base umpire goes out to make a call in the outfield, that umpire will STAY OUT. Be set for the touch/catch by the fielder, make the call and continue moving away from the infield.
6	The second base umpire should move into the infield on the side opposite the direction of the ball when required to come inside.
