

HYR Team Picture Day Guide

On HYR Picture Day, the teams will take the pictures directly after their game on the top tier near the field labeled “Field 7” on the map. Our photographer will take 3 or 4 pictures and we select the one with the best collective opening of eyes and smiles. We love it when the team brings a poster board and some markers and makes a sign for the team. The players can do this on the sideline during the game. Players who identify from a given country may choose to hold up their flag, which we supply. Please check in advance to see if we have YOUR flag. If players are missing on picture day, the team can arrange to re-take the photo with everyone present or we can dub them in later as described on the next page

HYR Missing Player Team Picture Transformation

Ideally, all team pictures will be taken with all team members present. Sometimes vacations, sickness, or other conflicts prevent a full team from all being together after picture day. In some cases, we will use a little computer technology to make a complete team picture from separate photo pieces. Coaches will advise if the team will re-schedule the team picture or use the digital photo insertion solution. Results aren't perfect, but usually better than not being in the photo.
