

San Dimas Little League COVID-19 Return to Practice Protocols

In conjunction with Little League District 20, San Dimas Little League has developed the following safety protocols to maintain an environment that reduces the risk of transmission of the COVID-19 virus.

Participant Protocols. Each team must practice as a unit (rostered team of 13 players or less). Players from another team are not permitted to attend or participate in practices.

1. Players' parents must sign a waiver stating their child will not attend team activities if they exhibit any symptoms of COVID-19 (fever, cough, etc.).
2. Players must be picked up and dropped off by members of their own household.
3. Prior to participating in any practice, parents must take the temperature of each participant to ensure that no one has a fever of 100.4 or higher. A player may not attend any league activity within 24 hours of registering a fever of 100.4 or higher.
4. Participants exhibiting any of the symptoms of the virus will be asked to leave and any participant or family member exhibiting symptoms at home not come to the field.
5. At practices, players will be broken up into smaller groups and will practice with the same players throughout the session. Coaches will be expected to ensure players maintain a minimum six-foot distance at all times.
6. Players will use their own equipment and not share bats, gloves, or helmets.
7. Coaches shall wipe down equipment, including catcher's equipment, with disinfectant between each use.
8. All adult participants involved in practices will be required to wear masks.
9. Players will wear face masks during practice when not on the playing field.
10. Fans must bring their own seats and need to be seated away from the players, around the perimeter of the field's fencing and a minimum of six feet away from others that are not a member of their household. Bleachers shall be taped off so fans cannot utilize them.

League Protocols

1. SDLL will limit the number of non-participants around the facility to maintain social distancing.
2. SDLL will ensure disinfectant wipes, hand sanitizers, or the equivalent are available in the practice area.
3. SDLL will maintain oversight of participants and their family and ask any person exhibiting symptoms to leave the facility.
4. Coaches will clean all dugouts and benches in between practices.
5. SDLL will provide six-foot markers for restroom lines.
6. Restrooms will be cleaned after every practice.
