

Lower Stand
OPEN/CLOSING TO-DO's

Prep the list right away. Open windows no later than 5:15 p.m. (sooner, if you're ready, please)

My name is Courtney. Call or text with ANY questions.
(605) 430-2723

1. **POPCORN:** Make 2 to 3 batches. Fill bags and place them in the warmer. There are more popcorn kits below in cupboards. If there isn't any below there is more up in the side room to the west of the main stand. At the end of the night turn off and wipe out.
2. **NACHO CHEESE MACHINE:** Make sure there is a back up nacho cheese bag in the rack inside the machine. There are more bags of cheese below in cupboards. Fill 5-8 condiment cups, cap with lid and place in warmer. Do NOT turn off or unplug the machine. Wipe down any messes in and around the machine at the end of the night.
3. **NACHOS:** Nacho kits are in the drawer below the nacho cheese machine. Back up nacho chip cases are below in cupboards. If there isn't any below there is more up in the side room to the west of the main stand. Build kits and stock the drawer.
4. **PRETZELS:** Place pretzel on a paper plate in the microwave and cook for 1:30m for one or 2:00m for two. Spray with water, rub in salt and place in a bag or on a plate. Extra pretzels are in the freezer. If none is in the freezer there is some upstairs in the crows nest.
5. **PICKLES:** Serve in a boat. At the end of night place the jar in the cooler. DO NOT THROW PICKLE JUICE AWAY. Will have pickle juice shots as well.
6. **CANDY:** Chocolate candy is below cold drinks in the cooler. Back up boxes are upstairs in the crowsnest. There is backup laffy taffy and other counter candy down below or upstairs in crowsnest. At the end of the night stock.
7. **PEPSI COOLER:** Make sure it is stocked full at the beginning of the night. If not, there is cold product in the pepsi single cooler next to the freezer. If you pull product from the single cooler make sure to replace it with warm product from the storage room on the backside of the lower stand. Make sure both coolers are stocked at the end of the night.
8. **HOT DOG & ROLLER:** Turn the roller on to medium heat and place 10-12 hot dogs on roller. Cook until done. Place in a bun and wrap in foil. Place in the warmer. End of the night, wipe the roller down, turn it off and place the cover on top.
9. **END OF NIGHT:** Wash dishes, wipe microwave out, sweep floor, empty garbage, stock cooler and other items. Make sure the hot food warmer is turned off and wiped out. Take garbage to dumpsters by the batting shed.

*****Condiments need to be wiped down and placed back in cooler*****

*****There are two garbage(s) to empty.. The can inside of the stand and the can outside of the stand. Take to the dumpsters by the batting shed.*****

***** We are keeping inventory. please make sure to ring everything in the square*****
