4. In stunts requiring a spotter, a spotter:
 - a. Can't provide primary support for a top person.
 - b. Must be in a position to protect the top person's head, neck and shoulders
 - c. Spotters must have their attention focused on the top person. Momentarily looking away in order to assess environmental safety factors (another stunt, etc.) is allowed as long as their focus returns to top.
 - d. May not have their hands behind their back.
 - e. May not support under the heel or sole of the top person's foot in a single based extended stunt. They may hold at the ankle of the top person and/or the wrist of the base or any combination thereof.
5. **Partner stunts have the following limitations**
 - a. **Extensions/Qp's are allowed**
 - b. **Freestanding liberties are allowed. All other extended body positions on one leg are PROHIBITED**

| DEDUCTION | POINTS |
|---|--------|
| INDIVIDUAL ATHLETE | |
| MINOR FALL(S) | 0.25 |
| Examples: hands/knees down on tumbling, jumps or other skills | |
| MAJOR FALL(S) | 0.5 |
| Examples: landing on head, shoulders, back on tumbling, jumps or other skills | |
| BUILDING | |
| BOBBLE(S) | 0.5 |
| Examples: Stunts, Tosses and Pyramids that almost drop / fall or excessive movement of bases. This includes dropping of an extended stunt to prep level or bases traveling to keep the stunt extended. This would not include a stunt where only the top person drops body position, or small balance checks. A bobble will be issued if a top person is standing on both feet and only one foot falls below prep level. Stunts that come down but do not meet any of the Minor/Major Fall definitions will be issued a Building Bobble. | |
| MINOR FALL(S) | 2 |
| Examples: Drop from an individual stunt to load in, cradle, prone or flatback. This also would include the top becoming weight bearing on the spot, a base or spot landing on the ground, or if the top is brought to the performance surface in a controlled manner. In a 2 foot stunt, if both feet drop below prep level or in a 1 foot stunt, the foot that is providing support drops below prep level a Minor Fall will be issued. Incomplete twisting baskets. <u>Stunts could meet this definition and continue building following the disruption.</u> | |
| MAJOR FALL(S) | 3 |
| Examples: Drop from an individual stunt to a compromising position. This would include the top landing in a position not mentioned in Building Minor Fall or to the ground in an uncontrolled manor or multiple bases or base and spot landing on the ground. Incomplete baskets or baskets that do not land in a cradle position. <u>Stunts could meet this definition and continue building following the disruption.</u> | |
| PYRAMID FALL(S) | 4 |
| 2 or more connected stunts falling. If multiple pyramids are built at the same time, each pyramid would be treated separately. If multiple tops fall in the same pyramid but are not in direct connection, this deduction would still apply. If the deduction would only apply to one top, a Building Bobble, Minor or Major Fall would be used. If multiple pyramids are built at the same time, each pyramid would be treated separately. If multiple tops fall in the same pyramid but are not in direct connection, this deduction would still apply. | |
| OTHER | |
| UNSPORTSMANLIKE BEHAVIOR | 1 |
| When a coach is in a discussion with an official, other coaches, athletes and parents/spectators, they must maintain professional conduct. Failing to do so may result in a 1.0 deduction, removal or disqualification. | |
| SPECIFIC SAFETY VIOLATION | 5 |
| When a skill is not performed in a legal manner. Examples: Release transitions landing inverted, pancakes from an extended position, single base stunts without a spotter, double twisting tosses or release dismounts. | |
