Good afternoon,

The City of Abilene Parks and Recreation Department will be sending out new contracts for your league soon. I wanted to let you know about a change to this contract. As you know, the City Council approved a player use fee last year. The contract will now require the leagues to collect this fee and submit payment of all participants to the City. Last year we tried giving the option of collecting this fee through our office or allowing leagues to collect it. Several leagues did collect the fee and we found that this worked much better for both parties.

We are happy to assist in any way we can in this change. Please let me know if you have any questions,

Richard Rodgers
Assistant Director of Parks & Recreation
City of Abilene
