George Mallett

Meet our Baseball Commissioner!

About me:

My wife Whitney and I moved to Avon five years ago. We felt that Avon was a great community to raise a family, and now with two young children, we know we have made the right choice. After our oldest had a wonderful experience this past Spring in AJAA Tee Ball, I knew I wanted to be involved with this organization. I played baseball at Manchester University while earning my degree in Economics. My professional background is in coaching Baseball. I have spent five years in youth/High School summer organizations, two years coaching High School Baseball, and five years coaching collegiately. I am now a full time dad and serve as an associate scout with the Tampa Bay Rays. I believe youth sports are an avenue for kids to learn valuable skills that will transfer to all facets of life. I am looking to have a positive, lasting impact on the community and to help grow the sport of Baseball in Avon!
