

Sarah  
Smundsen

### About me:

Sarah is a graduate of Bloomington High School North and Indiana University-Bloomington. Growing up, she was involved in an array of athletic activities in the Bloomington area so she knew what a difference those activities can make. Sarah was eager to serve her new community in Avon after moving to the area in late 2019, but didn't get the chance until later with the timing of the pandemic. She coached both of her nieces separately during each of their first year of football cheer with AJAA (now Avon Youth Sports), starting in the 2022 season. Most recently, she has been an Assistant Coach for the All-Star Cheer squad. Seeing the impact that each team and experience has on every child made her want to contribute on a bigger level. The move to Avon Youth Sports has provided an opportunity to grow the cheer program exponentially and she's excited for what's to come!

Professionally, Sarah has worked in the healthcare field since graduating from IU. For the past ten years, she's worked remotely supporting nursing students and nursing school faculty for over 600 schools. Specifically, she helps train nursing faculty and students to utilize the prep products from her employer (ATI Nursing) in an effort to improve their outcomes when taking the nursing board exam (NCLEX) after graduation. When she's not busy with work or cheer, she's often reading, traveling, cheering on the IU football and basketball teams, surrounded by dogs, or watching mindless reality shows on Bravo.

Meet our  
Cheerleading  
Commissioner!
