## Meet our Rec. Softball Commissioner!

### About me:

I joined AJAA (Avon Youth Sports) in 2016 as the Head Coach for my daughter's 6U Kindergarten team. I was initially a little hesitant, as I did not have any previous coaching experience, but it turned out to be the start of a rewarding adventure as a coach. I have since coached 9 teams including an 8U championship winning team in 2020. I am now a passionate softball coach and big advocate for AYS in general. My daughter has met so many friends through AYS sports and I have met many parents that I now consider friends. My goal as the Softball Commissioner is to encourage and support all of our softball volunteers. I want them to be just as excited as I am about coaching youth softball. I also want to make sure the experience is smooth and straightforward for all of our softball parents by improving communication channels between the league, coaches, and parents. If I have not gotten the opportunity to speak with you already, please don't hesitate to give me a call, shoot me an email, or even track me down at the fields. I love talking to parents. I love hearing your feedback (both good and bad), and I value your input and ideas. My goal is to be the "People's Commissioner" and tailor this program to meet the needs of both our parents and volunteer coaches. I look forward to this upcoming season and beyond!
