

Name (First and Last)	Personal Profile- history with club, players in the program, etc.?	Current Involvement/Activities in McKinney Lacrosse and other organizations?	Please state what area of McKinney Lacrosse you'd most like to influence (e.g. boys, girls, HS, MISD, Web, Registration, etc):	What function or position appeals to you the most? What specialized area are you most passionate about? Club Priorities?	Please give a short overview of your strengths, desires for the club, personal experience and traits you'd bring to the club Board of Directors (the longer and more in depth you can be the better!) . NOTE: This may be viewable to voters at a later date.
Cary Bonds	3 boys have played for the program over last 7 years; will have Freshman and Senior on HS team in 2019/2020 season. Have enjoyed learning the sport over the years and helping the program where I can. Specific interest in helping HS athletes get the collegiate exposure based on my own experiences with my sons.	Volunteer for 7/8 and Varsity; wife (Michele) is the TM for 7/8 and will most likely volunteer for TM for Varsity 2019/2020 season	HS Men's; fundraising; collegiate recruiting support	Fund Raising; will continue to volunteer for games and various events	Will be traveling for work during the annual meeting.
Clint Chandler	I have bot girl twins, each who currently play on the 3/4 teams, but will move to 5/6 teams in the fall. Also, I have a 13 year old daughter that will try out for the 7/8 team in the fall. This fall will be my fourth year with the McKinney Lacrosse club. We have been boosters each year as well.	We have been boosters every year, helped coach my first year, and have helped the TM every year. Have been boosters for all of our children's activities, football, cheer, volleyball, lacrosse, dance, gymnastics. Along with coaching, and volunteering.	Any area that needs help. I have a son and daughter that both play, so I would like to help either, or both. 5/6- HS, really anywhere needed by the club.	I want to help the club grow. I want to help in two ways. I want to broaden the scope of the club to the masses in McKinney, and help the current die hards with issues that they see. I want to make the club better then when i found it, if that makes sense. I would like to network with other lacrosse clubs in the area, see what works for them. Be a go between for the TMs and the club, listen to parents and families and all ideas, and present them to the board. A go between if you will. Anything form sponsor opportunities on down. I also believe I have a great alternative for the club for fund raising that will let the club clear more money, make it VERY easy for the TMs, the parents, everyone involved. The club gets to pick what the payout is, cash, prizes, etc. per age group, per team. This company is a .ORG, not a retail store, they have been in business a long time, and it is all they do. They would also do a party with bounce houses etc. free of charge, bringing more recognition to the club.	My strengths are networking and helping others where they need it. I have good leadership skills and can find help where needed to get the job done. I have worked at my current company for years managing people and the P&L. I work very well with others. I would love an opportunity to continue the strong tradition that the McKinney Lacrosse Club has laid out, and to build on it. Grow it organically, and find new ways to help grow it. Speak with all of the schools, even at the MISD level, talk to other lacrosse clubs to see what works, what doesn't. Speak with other sports organizations to draw from their successes as well. Partner with sponsors to fill needs of equipment at tournaments. And bring back the annual gear swap/garage sale. I spoke to some of the coaches about it. The parents are on board too. This will give everyone an opportunity ti buy or donate gear.
Kellie Chandler	I have 10 yo B (Colby)/G (Carrington) twins that both play lacrosse and a 13 yo daughter (Lanie) that plans to play this fall. Colby typically plays lacrosse in the spring and tackle football in the fall while Carrington plays lacrosse in the spring and cheers for his football team in the fall. They have both decided they would like to give up the other sports and play lacrosse this fall. Exciting! This is Colby's third season and Carrington's second season with the club.	I am the team manager for the girls 3/4 team and have been asked by Jeremy to keep the role for the girls 5/6 team this fall. I'm delighted to do so! I am the Girl Scout leader for Carrington's troop and a coleader for Lanie's troop. I am the acting Site Manager for the Girl Scout Fantasy Trails camp which is held here in McKinney every June. I am also a member of the PTO board at Slaughter Elementary responsible for coordinating all school supplies for the following school year.	girls and registration	I would love to do something with registration. I am always a bit disappointed in the lack of advertising of the girls games and events. I'd love to help with the club communication as well.	My "day job" is a Project Manager/Talent Logistics Manager for a woman owned technology services company based in Plano. In that role (as well as all of my volunteer work), I must be extremely organized. I am currently responsible for managing 15+ projects and 150+ contractors who help us get that work completed. Excel, Outlook tasks and my to do lists are my best friends! I am a great communicator as I work primarily with law firms and they will not suffer fools gladly. I try to share the pertinent information in a concise manner because we all lead very busy lives. I am not afraid of public speaking as I started my career as a technology trainer teaching attorneys and support staff how to effectively use the computers and software available to them. A mentor once told me not to come to the table with a problem unless I also had an idea of a solution. I mentioned above that I was disappointed in the lack of communication surrounding the girls games and events. I can't complain about it unless I'm willing to help resolve it. I'm ready and willing and excited about this opportunity!!

-----------------------	--	--	--	--	---

Barbara Barany	<p>My family started with the Club in 2013 when our oldest was on the Varsity squad. He was a key player in the 3 state championship years our club had. My two younger boys are currently enrolled in the k/2 team and 3/4 team. I have been the 3/4 team manager for 3 consecutive seasons and help the k/2 TM as well.</p>	<p>I am a Team Manager for the 3/4 Boys and was the popcorn fundraiser parent volunteer/chair.</p>	<p>As a TM, this past spring, the 3/4 team welcomed 11 brand new to lacrosse families. It was an honor and pleasure to get them up to speed with the rules of lacrosse and many of them are planning on returning in the fall.</p>	<p>I would love to work on social media or registrar. I also feel that our Club should be present in our community more by doing outreach or even city activities like Oktoberfest and the 4th of July Parade, as well as maybe booths at 5K, etc. I would love to bring back Trash Can lacrosse, maybe at a lower registration price point and get more local businesses involved to make a fun festival type day! I also have some other ideas about streamlining fundraisers and setting the club calendar at the beginning of the season so things like picture day and tournaments/games are already planned out so that parents can schedule properly. I think, as well, the TMs need more board support. Many have said they'd be willing to have at least one in person meeting to go over club goals/etc. over a cup of coffee or dinner/etc. Many of the TMs are risking bum out and they really are the backbone of the organization.</p>	<p>Barbara Barany has been with McKinney Lacrosse since 2013 when her oldest son joined the HS Varsity team. It didn't take long for her two younger sons to also develop a love for the sport and both started playing in Kindergarten. One is still on the k/2 team and the other is a 4th grader on the 3/4 team.</p> <p>Over the past 3 seasons, Barbara has been the Team Manager for the 3/4 teams; and this spring, chaired the popcorn fundraiser alongside Craig Vollmer and Scott Wooters. Prior to taking on the TM role, she was on the leadership team for a local MOPS (mothers of preschoolers) group for six years; three of which were spent as the President of the chapter. Barbara was also the Lead Finance Manager with the MOPS twice yearly consignment sale fundraiser for 5 years. She also runs a side gig home based business and has had considerable social media training.</p> <p>Barbara's experiences at both the High School level and youth level offer a unique perspective and fresh ideas to the Club. She has lived here in McKinney since 2011 with her husband, Steve, and sons, while her oldest is now attending the University of Alabama.</p>
-----------------------	---	--	--	--	--

Reginald Jeffery	<p>Youth coach in McKinney for the last 5+ years. I have two players in the youth program, Caden and Kamron Jeffery.</p>	<p>3/4 and 5/6 youth coach</p>	<p>youth program, registration, digital presence</p>	<p>Program and event management , Advocacy , club culture</p>	<p>My goal is to create a strong culture across the high school and youth programs. Lacrosse is a perfect accompanying sport for dual sports athletes, this is a great opportunity for McKinney Lacrosse to increase registration.</p> <p>What I would bring to the Club Board:</p> <ul style="list-style-type: none"> • 13+ years of coaching lacrosse at a youth and high school level. • Played at both a high school and college level in the thsl and LSA. • Strong connections across the lacrosse organizations in the DFW community. • 10 years of project management and event management <p>Commentary, streaming, and digital capturing experience for lacrosse programs in Texas</p> <p>I'm highly motivated to partner with a group who are driven to build a strong program for our kids as well as the kids who will be joining us in the future.</p>

Lee Fox	3/4 Coach for 2 years, Son in boys youth program	youth boys coach, cheerful volunteer :)	mostly youth, but essentially all facets	I really enjoy growing the size and spirit of the youth program; boys and girls and being intimately involved in the coaching and development of the youth players.	I would certainly provide an objective point of view to the direction of the club, especially considering the transition and renewal of several members. I am particularly excited by the enthusiasm and interest of the younger members / kids entering the club recently, and hope to be able to transmit my passion and excitement for continued advancement and growth of our program. As someone who began the sport at a young age, as part of a grass roots "start up" program, played at the collegiate level and who has continued to stay active as a player in men's leagues and travel tournament teams, I provide a relevant knowledge of the sport, and the commitment it takes to not only remain relevant to attract new members, but to what it takes to retain members and maintain excitement. As for recruiting and retention I think it is critical to have consistent communication, and an integrated vision that is transmitted clearly throughout all levels of the club on a regular basis. I am selflessly committed to the viability of the club and the best interests of the club as a whole.
Andy Bruechner	I've had a child in Mckinney Lacrosse since 2011 when my son (Sam) started playing lacrosse on his 3-4 team. My daughter (Kate) started playing as a 2nd grader on the 3-4 girls team. Sam played through his 9th grade year. Kate has just completed her freshman season on the Girl's High School team. My wife, Lesley, has served as a Team Manager and I assisted her with field setup and other duties.	I've volunteered as needed throughout my involvement with McKinney Lacrosse - usually as it relates to my kids teams. This past spring season I ran the scoreboard and kept statistics for the Girls High School team - and will continue to do so in the coming years. I particularly enjoyed helping out at the THSLL Final Four this year at Ron Poe. I played only a small part - but am very proud of the show our club put on.	With my daughter being a rising sophomore, I have a natural inclination to be involved with Girls HS team in some way. I also have a technical background and feel that I can contribute there as well.	Since I have a technical background I believe I can be of great help in areas related to that and the web.	I've been involved with the McKinney Lacrosse club for 8+ years and not only have my kids benefitted from being in this program, my wife and I have as well. We look forward to Lacrosse season as much as they do! While I have volunteered heavily in the past, I see a board position as my opportunity to give back to the Club in a bigger way. A few areas I would like to focus on are: 1) Continue to grow our club - with an emphasis on the girls game and 2) With the success our club experienced hosting the Boys State Championship two weeks ago it would be a great goal to capitalize off of that experience and bring the Girls State Championship to McKinney in the coming years! Whether I am elected to the Board or not I plan on being involved and active - to help in any way that I can to help this sport grow in Mckinney!
Cole Young	Finished second full season with McKinney Lacrosse this past month, getting our son Jaxon acquainted with the sport. This has been a great learning experience for me as well to better understand the fundamentals and rules of the game first-hand.	MISD Mentorship Program, Alpha Tau Omega Alumni Association.	It's been brought to my attention that we currently do not have Board representation for K-2 Boys team - it will be important that leadership has clear view of opportunities, issues, etc. at that level to ensure success for both kids and coaches. Accessibility, affordability and community development will be other areas of focus.	As mentioned above, in addition to K-2 Boys representation I would also like to help address accessibility and affordability at the developmental levels for McKinney Lacrosse. Community development and general awareness will also be of interest to ensure future organization success.	In short, my key areas of strengths fall in the categories of competition, adaptability and team member development. At a fundamental level, it's important to not only set objectives but strategically map out the best strategy to meet them. Furthermore, it's important to lead by example and be viewed as best-in-class within the organization, company or department you reside. Given my strong background in marketing and brand management for some of the world's largest companies, I understand first-hand the importance of bringing awareness, user acquisition/retention, positive perception and fiscal responsibility to all facets of an organization, product or service. My commitment to this organization will be no different, and I'm eager to learn and educate myself in the areas that are less familiar. It will be my goal to breathe new life into an already stellar and established program.

James Best	<p>I am a senior executive in the IT industry and have been in the business for 30 years and through many leadership roles with EDS, Hewlett Packard and now DXC. Having lead business units in North/South America, Europe, Middle East, Africa and Asia Pacific, I have gained a broad view of people, culture and business around the world. I believe I can bring a wealth of knowledge and experience from my professional career to help the McKinney lacrosse organization.</p> <p>My wife, Janell, and I have been involved with the McKinney lacrosse program since 2012. My son, Henry, started playing in the spring season of that year when he was in 3rd grade. In that time, we have seen many changes in the program and several different boards come and go. I have gotten to know the club history and have experienced it first hand through the years. I have watched the progress and challenges of the program and I believe I can bring insight to the club from many different viewpoints and across multiple age groups coming through the program. Development at every grade level is key to having a successful program.</p>	<p>My wife and I volunteer with every home game and where ever it is needed.</p>	<p>I am open to helping McKinney LAX with any part of the organization which helps us to build a great LAX program for all out stakeholders.</p>	<p>Any function or position which allows me to help deal with whatever parts of our program are holding us back from being GREAT, I am open to tackling.</p>	<p>Strengths;</p> <ul style="list-style-type: none"> - Leading /managing complex situations to achieve desired outcomes - Communication skills - Ability to work with very diverse groups - Strong analytic skills for root causing problems, then developing and executing improvements - Perseverance / Focus/ Determination <p>McKinney LAX has many people and parts which make up the program. To build and sustain a great program, I want to help get all our stakeholders and parts of the program aligned on the MLAX vision, goals and objectives for our program. We have a great opportunity to provide our kids with a unique and positive experience through the sport of lacrosse. Dealing with the many, and sometimes opposing views of how that should be accomplished, requires strong engagement with the core people parts of the program, i.e. players, parents, coaches, team managers, sponsors, the board, etc. All of our key stakeholders need to feel part of the program, they are valued and can help in whatever way possible for them to help build MLAX into a great lacrosse program.</p>
Chris Quigley	<p>I have a daughter that has been playing lacrosse with McKinney for five years and is currently on a local travel team. She will be on the McKinney 7/8 girls team this upcoming year.</p>	<p>Outside of my day to day job, I currently give presentations on internet / online safety (social media awareness) to youth and parents in the Dallas metroplex area. I work with Operation Underground Railroad (O.U.R.) and teach both domestic and foreign law enforcement agencies undercover chat and computer / cell phone forensic techniques.</p>	<p>I would like to work on the overall growth of the McKinney lacrosse club, but with an emphasis on the girls side.</p>	<p>I would like to help out with player recruiting and player development as well as player and parent code of conduct. I would like to see the cost for age groups 1/2 and 3/4 be lowered to try and get more kids to try the game. I believe that if the cost is low for brand new players, parents are more likely to sign them up not knowing if they will like the sport or not.</p>	<p>Those who know me would say that I am passionate about sports. I always take a chair to sit in at the sporting event but seem to just pace back and forth along the sideline. When my wife was pregnant I prayed and prayed for boys, however I was blessed with two beautiful girls and a whole lot of patience.</p> <p>Born and raised in Texas, I grew up playing every sport I could starting with soccer and baseball at a young age. As most boys do, transitioned into football at an early age and continued to play football wrestled. When my parents moved and I had to go to a new school, I thought my life was over because it did not have a wrestling team. For most of my junior year, I petitioned and got signatures for the school district to get a wrestling team. That wrestling team has now won 10 straight state wrestling championships. My senior year after blowing out my knee, having surgery and rehabbing, the high school got its first lacrosse team. Seeing that my football season was cut short from injury, I gave lacrosse a go and fell in love with it.</p> <p>When McKenzie was in first grade, she saw my ancient lacrosse stick from high school and asked what it was. After McKenzie watched the North Carolina women's lacrosse team win the nation championship in 2013, she was hooked. McKenzie was able to try the then \$40 McKinney lax clinic that included a lacrosse stick and has never looked back. Lacrosse has allowed her to create great memories and even better friendships with her team mates.</p> <p>I believe that I could help with player / parent code of conduct issues as well as player recruitment / development and retention. I appreciate the opportunity to join the board and welcome your support.</p>
Dennis Jaglinski	<p>My son, Hampton, has been in the McKinney program since he has been in the 4th grade. This coming year, he will be a sophomore. Previously he spent one year in Allen's program before the realignment.</p>	<p>My wife and I have volunteered many hours this past season to support the club. Other organizations that I currently support is the Denton State Supported Living Center and the Cystic Fibrosis Foundation as well as past with YMCA, Habitat for Humanity, and LLS.</p>	<p>In order to bring more interest in Lacrosse, I feel the older children in both boys and girls programs can establish a mentoring program for the younger players.</p>	<p>In my professional life, I am a Purchasing Director. I feel there is a need of additional sponsorship and fundraising to help defer cost and help with travel for the high school children.</p>	<p>I have served on multiple boards for different organizations and HOA's, and the most important thing that I have learned is to put the needs of others before your personal needs. You need to have an open-mind, compassionate, willingness to explore new ideas, not be judgmental, and be willing to give your time.</p>

Owen Lancaster	Our family has been involved with the club since 2013. All three of my children have played with two still in the boys and girls HS programs.	I have been on the board of McKinney Lacrosse for 4 years, the last three of which I have served as president.	The overall direction and vision of the program, with an emphasis of recruiting and retention at the youth levels.	Continued growth of the program in the lacrosse community. Expanding TurLaxin' which has become the "premier" fall tournament in North Texas and a major fundraiser for the club as well as expanding upon the positive momentum gained from hosting the THSLL State Championship. Building upon the goodwill we have established with MISD and work to gain access to the schools as well as improving our access to fields.	The biggest strengths I will bring are my passion for McKinney Lacrosse and the experience I bring as a current board member. We will have a relatively inexperienced board next year and while it is exciting to have fresh ideas, it also represents a challenge for any organization.
