# Safety Tips

To help prevent heat-related player problems, precautions must be taken to make sure players on your team do not dehydrate. Have players drink plenty of water on game days.

1. Suggest players take drinks of water before going out on the field and when returning from the field.
2. If a player looks distressed while standing in the hot sun, notify the umpire then substitute that player and get them into the shade or dugout ASAP.
3. If a player collapses because of heat exhaustion, 911 will be called immediately. Get the player to drink water and use the ice bags available in the concession stand to cool him/her down until medical personnel arrive.
4. During inclement weather and thunderstorms, please be prepared to evacuate to your vehicles as directed and DO NOT leave with a player until their manager has approval from the Tournament Coordinator.
