Game Score Entry

Once the game is complete follow these steps to enter the game results.

Follow the same steps outlined in #1 through #5 to pull up your list of games.

- Should bring up the full schedule (home and away).
- Even if there is a result posted you are supposed to enter a result as well.
- **Click the box that shows your teams score.** Will bring up a pop-up to enter your score, enter discipline, and add any notes.
- Both teams need to enter the game results.
- It will display who entered the match results last and when. If no results have been entered by your team at this point you would see (0) for both home and away scores even if the opponent has already populated a result.
- Please enter your scores for both home and away.
