

Jersey Number Application Guide

This list spells out the correct size and color for the jersey numbers used on the fourteen (14) most popular colors of umpire jerseys. Most of our umpires have at least the first eight (8) jerseys.

Also included is the recommended order of purchase. The first eight (8) jerseys are very popular. Most of the veteran umpires throughout the district carry these eight (8) jerseys. The last six (6) jerseys are less popular. Check with the other umpires in your area before you invest in any of the last six (6) jerseys. It does you no good to buy any of these jerseys if none of your partners have them.

American Flag Placement (Optional)

In order to facilitate the placement of the jersey numbers on the right sleeve, the American Flag must be removed from that location. The flag is not a requirement on any official's uniform. For those who wish to wear the American Flag on their jersey, it should be placed on the upper back. It should be centered horizontally, with the top of the flag being one inch down from the bottom of the collar.
