

MACHINE PITCH

SPRING MACHINE PITCH

Perfect for kids looking to transition from coach pitch and tee-ball to a more structured and competitive league that puts development first.

This program is ideal for players with some baseball abilities, but attentive and coachable kids that lack experience can thrive in the setting that the Thunder Baseball League provides. In addition, Thunder Baseball uses the teachings of the Positive Coaching Alliance to train the many volunteer coaches in the program to ensure that our players are developing in a respectful, fun, and safe environment for all.
