

# Adding Club Pass Players to Rosters

Adding club pass players to rosters must be done by the club registrar. After they are added to the roster the team admins can mark them active/inactive on the game day roster.

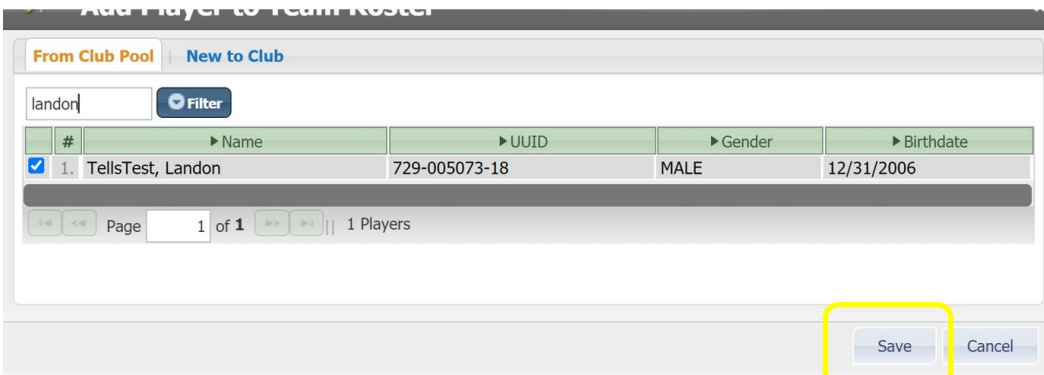

To add them as a club pass player, go to the roster they need to be added on. Add them using the green add player to team button.

Select the player to add to the team. If the below box pops up to initiate a transfer **HIT CANCEL** as you don't want to transfer the player.

Once you hit **CANCEL** you can then click save to add them to the roster.

Once they are added click the blue pencil edit box.
