

➤ Viewing your Team Roster (for YOU to see who has completed their registration and who needs a gentle nudge)

To see your roster and player/adult head shots:

- Login at the top right-hand side of the MSI webpage: www.msisoccer.org
- Once you are logged into your account, click “Volunteer” on the **left-hand side** of the page
- Click “Visit Team Page”
- Click the “Roster” tab. From there, you will be able to see your player and adult head shots (adults are on the right-hand side). *Reminder, this is **not** your official roster used on game day – you will be able to access/print that **after** your Registrar verifies your players and activates your team.*

If you see that a parent or adult has uploaded a “Don’t” head shot, please contact them and ask them to login to their account and upload a new one!

Do	Don't		
			
Your photo should be clear, centered, and a front view of your face. Make sure your eyes are open.	Minimize the shadows by photographing with a light in front of you, not behind you.	Your face should be most of the frame. It must be above the shoulders.	Sunglasses and hats will not be accepted. No funny faces.
