

## ▶▶ LIGHTNING POLICY

To ensure the safety of all players, staff, and spectators, AHFC follows the guidelines below in the event of lightning:

### **Monitoring**

- AHFC uses WeatherBug and the Lightning App to monitor lightning activity for facilities that do not have a Lightning Monitoring system.

### **Suspension of Play**

- If lightning is detected within 10 miles, all activities will be immediately suspended.
- All players, staff, and spectators must leave the field immediately and wait in their cars.

### **Delay & Cancellation**

- A minimum 30-minute delay will be observed from the last lightning strike within 10 miles.
- If a session is past halfway through the scheduled delay period, that session will be canceled.

### **Resumption of Play**

- Play may only resume after 30 consecutive minutes have passed with no lightning detected within 10 miles.
