

Instructions and Notes

The GameChanger Team Manager app is a free for your team to use. With the the GameChanger Team Manager app, you will be able to do the following:

- Manage your team's schedules
- Track RSVP to practices/games
- Send messages your team.

To use this, follow these steps and reach out to Dan (dspiteri1@yahoo.com) for any questions.

Before you can import your team, you must download the GameChanger Team Manager app from the [App Store](#) (iOS) or [Google Play](#) (Android). You must also fulfill these 2 requirements before being able to import your team into the app:

- The person doing this must be listed as an allocated volunteer for your team on the Sports Connect site. (Like the Team Manager or Assistant Coach)
- You are using the same email address for GameChanger Team Manager that you use for Sports Connect

Once you have the app downloaded, follow these instructions:

1. Once you are logged into GameChanger Team Manager with the same email address that you used for the lawrencehamnett.com website, tap "Create Team," and your team(s) from Sports Connect will automatically populate. As a team staff/manager you can select which team(s) you want to import roster(s) and schedule(s) to GameChanger Team Manager.
2. You need to confirm your email address before you can view your teams. Click "Open Email App" which will direct you to your email. Then select "Confirm Email Address" and you'll be redirected back to the GameChanger Team Manager app.
3. Once you have confirmed your email address, you can select which teams you want to import. Make sure the teams you want to import have a check next to them, and then tap import in the upper corner of the screen. You will see the status of teams importing at the bottom of the screen.

NOTES

Once you import the team, the practice schedule should automatically download as well. All of the practice schedules were added to the lawrencehamnett.com calendar and will automatically sync up. The rosters for your team will also sync up. You can go to the "Team" section and click on the invite next to each player and "Resend Invitations". If they do not have an "Invite" next to their name, they already have the app and you can tell them they can start using it. If a player's family has not accepted the invite, you can add other parents by clicking on the player, going to edit and adding a family member. Once a family member has accepted the invite, the only person that can add another family member are the parents of that child.
