

Chafik Rebai
Candidate Statement
CJSA 1st Vice President

I am willing and looking forward to continuing to serve as First Vice President of CJSA and will do my best to help promote Soccer and participation at all levels. My goal is to help the organization grow and get things done for the good of the game.

I have a long history of involvement with soccer; first as a former player, then serving in various capacities at the Club level, which I did for a long time, and more recently at the District and State levels. My focus remains to insure that all of our members get to have an enjoyable and lasting experience, whether as a player or through being associated with Soccer in one form or another.

Youth Sports are evolving fast lately. In this challenging and changing environment, long term vision, innovation, best practices and responsive program offerings need to be deployed urgently in order to maintain the rich traditions of soccer in Connecticut ,

Our base, the Clubs, parents, volunteers, and the kids that make up CJSA, deserve the best support one can give. .
