Dear Business Owner,

Seven Rivers FC, SRFC, is a newly formed developmental club for youth soccer players, the first of its kind in this area. Our experienced, certified, and professionally trained coaches will be creating engaging activities, using a professional curriculum in a fun environment. We are working to become the community club for our youth athletes. Our staff take a holistic approach to coaching the mental, physical, emotional, and technical side of the game which provide youngsters the skills, confidence, and motivation to better themselves both on and off the field.

SRFC is going to be partnering with schools, rec programs, and other sports to help our youth athletes be successful players, students, and members of our community. Youth that participate in sports programs learn more than just game skills, they learn life skills. SRFC's mission statement is "working to be a positive influence in the community, on and off the playing field." We need your assistance to help us help the community.

As SRFC's chairman and co-founder, I would welcome an opportunity to discuss our short and long term business plan, success milestones, and ways that you can help us achieve our goals. Attached is a sponsorship package with ways that you can assist.

For more information about our club, please visit our website here: [SRFC website](http://www.sevenriversfc.com)
