ADDRESS: 400 NE Mother Joseph Pl, Vancouver, WA 98664

PHONE NUMBER: 360.514.2000

#### **Background Checks**

Little League International has established criteria for each chartered league's performance of an investigation into the background of all individuals who volunteer in any capacity. Each volunteer will be required to complete a volunteer application from and provide a copy of their government issued photo identification. The minimum requirement for these background investigations is verification that volunteers are not registered sex offenders. In order to provide additional protection to the children we will submit a list of all volunteers to JDP. A background investigation that will list any convictions nationwide will be completed. Upon clearance of individual background investigations all volunteers will be notified by The Board of Directors.

# Little League® "Basic" Volunteer Application – 2023

Do not use forms from past years. Use extra paper to complete if additional space is required.

This volunteer application can be used <u>as a reference</u> for leagues utilizing the JDP Quick App or for leagues that are using an outside background check provider that meets the standards	Special professional training, skills, hobbies:
of Little League Regulation 1(c)9. Visit <u>LittleLeague.org/localBGc</u> heck for more information. All RED fields are required.	Special Certifications (CPR, Medical, etc.):

#### **League Training Dates and Times**

Coach Fundamentals Meeting:

Date

March 9<sup>th</sup> 2023

Union Ridge
Elementary Gym B

8:20nm

8:30pm

**Safety/First-Aid/CPR/Concussion Training: SAFE BASEBALL** - Online and certified – Self paced training – Must be completed by March 18<sup>th.</sup> Each team will receive a paper copy of this safety manual. Managers and orTeam Safety Officers should have a copy of the safety manual at all league functions.

#### **Field Inspections and Storage Procedures**

#### BEFORE THE SEASON STARTS

- ✓ Familiarize yourself with the safety materials.
- ✓ Appoint a Safety Parent for your team. They need to be at all the games and have a cellular phone. It can be an Assistant Coach.

#### PRIOR TO EACH GAME

- ✓ Complete a field safety checklist. Report any problems to your Commissioner. Or to the League Safety Officer.
- ✓ Check the team equipment for any problems. Report any equipment problems to the Equipment Manager.
- ✓ Check the contents in your team's first aid kit. Contact the League Safety Officer for any items that need to be replaced.

#### STORAGE SHED

The following applies to the entire storage shed used by the League and applies to anyone who has been issued a key to use those sheds.

- ✓ All individuals are aware of their responsibility for the orderly and safe storage of rakes, shovels, and bases.
- ✓ Before you use any equipment located in the shed (lights, scoreboards, etc.) please read the written operating procedures for that equipment.
- ✓ All chemicals or organic materials stored in the sheds shall be properly marked and labeled as to its contents.
- ✓ Any witnessed "loose" chemicals or organic materials within these sheds should be cleaned up and disposed of as soon as possible to prevent accidental poisoning.

REPORT ANY PROBLEMS TO YOUR COMMISSIONER OR SAFETY OFFICER.

#### **Inspection of Equipment**

- This Little League requires regular inspection of playing equipment.
- Unsafe equipment should not be given in team equipment bags.
- Manager's Coaches and Umpires are required to inspect equipment prior to each use.
- Bad equipment will be logged and will be removed and destroyed.

### Concession Stand "Snack Shack" Guidelines

Every worker must be instructed on these guidelines before they can work.

#### Wash your hands regularly:

- Use soap and warm water.
- Rub your hands vigorously as you wash them.
- Wash all surfaces including the backs of hands wrists, between fingers and under fingernails.
- Rinse hands well.
- Dry hands well.
- Dry hands with paper towels.
- Turn off water using a paper towel, instead of your bare hands.

#### Wash your hands in this fashion before you begin work and especially after performing any of these activities:

- After touching bare human body parts other than clean hands and clean exposed portions of arms.
- After using restrooms.
- After caring for or handling animals.
- After coughing, sneezing, using a handkerchief or disposable tissue.
- After touching soiled surfaces.
- After drinking, using tobacco, or eating.
- During food preparation.
- When switching from raw to ready to eat foods.
- After engaging in activities that contaminate hands.

#### **Basic Rules:**

- 1. Menu... smaller is better. No salads cut up fruit or vegetables, no food prepared at home.
- 2. Cook food thoroughly. Use a meat thermometer. Keep hotdogs and burgers at 41 degrees when cold and cook to 155 degrees or above when hot.
- 3. Rapidly reheat foods to 165 degrees. Slow cooking devices may activate bacteria and never reach killing temperatures.
- 4. All foods that require refrigeration must be cooled to 41 degrees F. as quickly as possible and held there until ready to use. To cool foods quickly, use the ice water bath (60% ice and 40% water), stirring the product frequently, or place their food in shallow pans no more than 4 inches in depth and refrigerate. Pans should not be stored one a top of the other and lids should be off or afar until the food is completely cooled. Check the temperature periodically to see if the food is cooling properly. DO NOT LEAVE FOOD OUT AT ALL!!
- 5. FREQUENT AND THOROUGH HANDWASHING IS REQUIRED.
- 6. Only healthy people should prepare and serve food. Anyone with any symptoms of

- disease (cramps, nausea, fever, vomiting, diarrhea, cough etc.) or who has open sores or infected cuts on the hands should not be allowed in the food concession area. Workers' clothes should be clean, and they should not smoke in the concession area. Hair restraints are recommended.
- 7. Food handling: Avoid hand contact with raw food, ready-to-eat foods and food contact surfaces. Use a utensil and/or glove.
- 8. Use disposable utensils for food service. Keep your hands away from food contact surfaces and never reuse disposable dishware. Ideally utensils should be washed in a four-step method: (1) Hot soapy water, (2) Rinsing in clean water, (3) Chemical or heat sanitizing, (4) Air drying.
- 9. Ice that is used to cool cans/bottles should not be used in cup beverages. And should be stored separately. Use scoop to dispense ice, never use hands.
- 10. Wiping cloths should be rinsed and stored in a bucket sanitizer. (1-gallon water and ½ tsp. chlorine bleach. Change the solution every 2 hours.
- 11. Insect control and waste. Keep foods covered to protect from insects. Store pesticides away from food. Place garbage and paper waste in a refuse container with a lid that fits tightly. Dispose of all water in the restrooms, do not pour outside. All water that is used should be potable from and approved source.
- 12. Keep food stored off the floor at least 6 inches. After your event is finished, clean the concession area and discard any unusable food. Do not save food for reheating.

#### THE TOP SIX CAUSES FOR ILLNESS

- 1. Inadequate cooling and cold holding.
- 2. Preparing food too far in advance of service.
- 3. Poor personal hygiene and infected personnel.
- 4. Inadequate reheating.
- 5. Inadequate hot holding.
- 6. Contaminated raw foods and ingredients.

# Concession Stand Tips

12 Steps to Safe and Sanitary intended to help you run a Food Service Events: The following information is

quidelines will help minimize the risk of foodborne illness. Following these simple

healthful concession stand

This information was provided by District Administrator George Glick, and is excerpted from "Food Safety Hints" by the Fort Wayne-Allen County,

Ind., Department of Health.

1 Mem.

Resp your mem simple, and keep potentially hazardous floods (ment, eggs, potentially hazardous floods (ment, eggs, and yegetables, etc.) to a minimum.
Avoid valling pre-cooked floods or fleboves. Use unity foods from appured a fleboves. Use unity foods from appured a floods that have been prepared at home. Complete counted over your food, floon source to service, is the key to safe, samitary flood service.

use of disposable gloves can provide as additional barrier to contamination, but they are no substitute for hand washing

5. Health and Hygiene.

Frequent and thorough hand washing remains the first line of defense in preventing foodborne disease. The

2 Cooking.
Use a food farmometer to check on cooking and holding temperatures of potentially bezardous foods. All potentially bezardous foods all potentially bezardous foods should be kegt at 41° F or below (if cold) or 144° F or above (if hot). Ground beef and ground pook products should be cooked to an internal temperature of 155° F, poultry parts should be cooked to 165° F. Most foodborne illnesses from temporary events can be traced back to lapses in temperature control.

Rapidly reheat potentially hazardous foods to 165° F. Do not attempt to heat foods in crock pots, steam tables, over sterno units or other holding devices.

to serve food Touching food with bare hands can transfer germs to food CATE

Slow-cooking mechanisms may activate bacteria and never reach

Use disposable utensils for food service.

Resp your hands away from a food connect surfaces, and never reuse disposable dishurar. What in a food releg process:

I Whating in hot soapy water,

2. Riming in Clean water,

3. Chamical or hear saminining and

4. Air drying Foods that require refrigeration must be cooled to 41° F as quickly as possible and held at that temperature until ready to serve. To cool foods down quickly, use an ice water bath (60% ice to 40% Cooling and Cold Storage

Ice used to cool cams bottles should not be used in cup beverzages and should be stored separately. Use a scoop to dispense ice, never use the hands. Ice can become confaminated with bacteria and viruses and cause foodborne illness water, string the profit frequenty.
or place the food in shallow pean no more than the tiches in eight and refrigerine. But should not be stoned our along the other and list should be off or sign time for some first food is complicately cooked. Check temperature personal could properly though the standout should be estamin unrefringerent for too long his bean the number ONE, crops colorons in the standout should be completely all the standout should be on the number ONE, crops of foodborne libers.

10. Wiping Cloths:

Rines and store your wiping cloths in
a booked of saminer (example: I gallon
of water and I'd seapons of choirme
blesch), Change the solution every
two boars. Well saminers wax straftees
prevent cross-contamination and ourage flies.

Rinse

Keep foods covered to protect them from itsext. Store performance wasses in a perfuse controllers with appear wasses in a perfuse controllers with a tight-fitting lid. Dispose of wastewater in an opticioned method (so not doubt of outside). All water used though it potable water from an approved source

12 Food Storage and Cleanliness.
Keep foods stored off the floor at least six inches. After your event is finished, clean the concession area and discard unusable food.

Only healthy workers should prepare and sear food. Anyone who shows symptoms of disease (crumps, names, fews, vounting darkelse, spandie, etc.) or who has open sores or infersed crub on the hands should not be allowed in the food concession area. Workers should ware clean outer garments and should not mode in the concession area. The use of hair extraints is recommended to prevent hair anding up in food preduct

13. Set a Minimum Worker Age
Leagues should set a minimum age for
workers or to be in the stand, in many
states this is 16 or 18, the to potential
hazards with various equipment

Gloves

Safety plans must be postmarked no later than May Inc. Avoid hand contact with raw, ready-to-eat foods and food contact surfaces. Use an acceptable dispensing utensil

# Volunteers Must Wash Hands

# Wash your hands before you prepare food or as often as needed.

## Wash after you:

Wet

- Luch troubled
   Patch unacoked meat, poultry, fish or eggs or other
  protentially hazardous foods
   Interrupt working with food (such as answering the
  phone, opening a door or drawer)
   est, smoke or chew gum
   touch soiled plates, utensils or equipment
   tuke out trash
   tuke out trash
   tuke out trash
   tuke out trash

Wash 20 seconds Use soap

## foods with your bare hands. Do not touch ready-to-eat

Use gloves, tongs, deli tissue or other serving utensits. Remove all jewelty, nait polish or false nails unless you wear gloves.

### Wear gloves.

when you have a cut or sore on your hand when you can't remove your jewelry

# If you wear gloves: ▶ wash your hands before you put on new gloves

Use single-service paper towels A BY

## Change them:

as often as you wash your hands
 when they are torn or soiled

#### **Accident Reporting Procedure**

**What to Report:** An incident that causes a Payer, Manager, Coach or Umpire to receive medical treatment or first aid must be reported to The Safety Officer.

<u>When to Report:</u> All such incidents described above must be reported to The Safety Officer within 24 to 48 hours of the incident.

The Safety Officer is: NAME: Jason Neiberger

Cell Number: 360.325.7159

Email:

safety@ridgefieldlittleleague.com

<u>How to Make a Report:</u> Reporting incidents can come in a variety of forms. Most typically they are telephone conversations. At a minimum the following information is needed.

- 1. The name and address of the injured person.
- 2. The date, time and location of the incident.
- 3. As detailed of a description of the incident as possible.
- 4. The preliminary estimation of the extent of the injury.
- 5. The name and phone number of the person making the report.
- 6. Names and phone number of any witnesses.

In your safety packet you will find the injury report forms. If your Safety Parent is there, he/she can assist you in getting the front of the form filled out. Then a call is to be made to The Safety Officer reporting the incident within 48 hours. Little League insurance is a supplemental insurance to the insured's own insurance. There is a small deductible.

**How to Replace the Injury Report Forms:** The forms can be replaced by The Safety Officer or downloaded from <a href="https://www.littleleague.org">www.littleleague.org</a> found under forms and publications.

#### FIRST AID KITS

Each team is provided with a league issued first aid kit. Each kit includes the following.

- (10) Adhesive sterile bandage
- (2) Extra-large adhesive sterile bandage
- (2) Non-adherent pads 2 x 3
- (2) Gauze pad 12-ply 3 x 3 sterile
- (1) Adhesive tape
- (2) Instant cold compress 4 x 4
- (3) Triple antibiotic ointment
- (3) Antiseptic towelette
- 1/8 oz. Burn Cream
- (3) Sting relief wipes
- (1) Tweezers

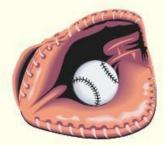

- Inspected helmets, bats, catchers' gear
- Made sure a First Aid kit is available
- Checked conditions of fences, backstops, bases and warning track
- Made sure a working telephone is available
- Held a warm-up drill

". All catchers must wear a mask, 'danging' type throat protector and catcher's helmet during infield/outfield practice, pitcher warm-up and games."

#### Coach, Please Let Players Catch!

Coaches and managers must not warm up pitchers. Let Players Catch.

...Managers or coaches must not warm up a pitcher at home plate or in the bull pen or elsewhere at any time. They may, however, stand to observe a pitcher during warm-up in the bull pen."

#### Don't Swing It

... Until You're Up to the Plate!

Don't pick up your bat until you leave the dugout, to approach the plate.

1. The on-deck position is not permitted in Tee Ball. Minor League or Little League (Majors) Division. 2. Only the first batter of each half-inning will be allowed outside the dugout between the half-innings in Tee Ball, Minor League or Little League (Majors) Division."

#### **Communicable Disease Procedures**

- 1. Bleeding must be stopped, the open wound covered, and the uniform changed if there isblood on it before the athlete may continue.
- 2. Routinely use gloves to prevent mucous membrane exposure when contact with blood orother body fluids is anticipated (Provided in the first aid kit).
- 3. Immediately wash hands and other skin surfaces if contaminated with blood.
- 4. Clan all blood contaminated surfaces and equipment.
- 5. Managers, Coaches, and Volunteers with open wounds should refrain from all directcontact until the condition is resolved.
- Follow accepted guidelines in the immediate control of bleeding and disposal whenhandling bloody dressings, mouth guards and other articles containing body fluids.

#### **Enforcement of Little League Rules**

- All volunteers must have a volunteer application filled out and on file with the LittleLeague. Our league will provide annual background checks.
- No laminated bat shall be used... (rule 1.10)
- The traditional batting donut is not permissible... (rule 1.10)
- A pitcher shall not wear any items on his/her hands, wrists or arms which may be adistraction to the batter. White long sleeve shirts are not permitted... (rule 1.11)
- Pitcher shall not wear sweat bands on his/her wrists... (rule 1.15)
- Players must not wear jewelry... (rule 1.11)
- Catcher must wear a catcher's glove... (rule 1.12)
- All batters must wear protective batting helmets, all helmets must bear the NOCAEstamp, No painting or stickers on helmets... (rule 1.16)
- All male players must wear athletic supporters. Male catchers must wear the metal, fiberor plastic type protective cup.
- Catching helmets must have the dangling type throat protector and catcher's helmetduring infield/outfield practice, pitcher warm-up and games.
- Skull caps are not permitted... (rule 1.17)
- Each team is allowed three coaches in the dugout...
- Managers or coaches may not warm up a pitcher at home plate or in the bull pen orelsewhere at any time... (rule 3.09)
- Coaches are encouraged to discourage "horseplay"
- No on deck batters are allowed in the Majors and below...(rule 1.08)

#### **Lightning Facts and Procedures**

#### **Consider the following facts:**

- The average lightning stroke is 6-8 miles long.
- The average thunderstorm is 6-10 miles wide and travels about 25 miles an hour.
- On average, thunder can only be heard over 3-4 miles, depending on humidity, terrain, and other factors. This means that by the time you hear the thunder, you are already in therisk area for lighting strikes.

<u>Rule of Thumb:</u> The ultimate truth about lighting is that it is unpredictable and cannot be prevented. Therefore, a manager or coach who feels threatened should contact the head umpire and recommend stopping play and clearing the field. In our league the umpire makes the decisionas to whether play is stopped. Once play is stopped, take the kids to safety until play resumes or the game is called.

<u>Where to Go?</u> No place is safe from lightning threat, but some places are safer than others. Constructed buildings are usually the safest. Most people will find shelter in a fully enclosedmetal vehicle with the windows rolled up. If you are stranded in an open area, put your feet together, crouch down and put your hands over your ears to prevent eardrum damage.

<u>Where not to go?</u> Avoid high places and open fields, isolated trees, unprotected gazebos, rain orpicnic shelters, dugouts, flagpoles, light poles, bleachers, metal fences and water.

#### First Aid for a Lightning Victim:

- Call 911 immediately.
- Typically, the lightning victim has similar symptoms as that of someone having a heart attack. Consider: will moving cause anymore injury. If the victim is in a high-risk area, determine if movement is necessary. Lightning does strike twice in the same place. If youare not at risk, and moving is a viable option, you should move the victim.
- If the victim is not breathing, start mouth to mouth resuscitation. If it is decided to movethe victim, give a few quick breaths prior to moving the victim.
- Determine if the victim has a pulse. If no pulse is detected, start cardiac compressions aswell.

NOTE: CPR should only be administered by a person knowledgeable and trained in the technique.

Remember: Safety is everyone's job. Prevention is the key to reducing accidents to a minimum. Report all hazardous conditions to The Safety Officer or another Board Member immediately. Don't play on an unsafe field or with unsafe equipment. Check the teams' equipment prior to each use.

#### **Hydration**

Managers are required to bring water to each practice and game.

Players are encouraged to bring bottled water or sports drinks.

#### **Tips to Prevent Heat Illness:**

- Know that once you are thirsty you are already dehydrated.
- Drink before you become thirsty.
- Drink plenty of liquids like water, or sports drinks every 15 minutes.
- Water seems to be the preferred beverage. Water has many critical functions in the body that are important for performance they include, carrying oxygen and nutrients to exercising muscles.
- Do not drink beverages with caffeine before practice or games. Caffeine can increase the rate of dehydration.
- Do not exercise vigorously during the hottest time of the day.
- Practice in the morning and during the latter part of the evening.
- Wear light colored loose clothes.
- Use sunscreen to prevent sunburn.
- If you begin to feel faint or dizzy stop your activity and cool off by sitting in the shade, air-conditioned car or use a wet rag to cool you off.

#### How is it treated?

Emergency medical treatment is necessary. If you think someone has heat stroke, call 911 or adoctor immediately. In the meantime, give first aid as follows:

- Move the person to a shady area.
- Cover the person with a wet sheet and keep the sheet wet for cooling from evaporation.
- Fan the person with paper or an electric fan (preferably not cold air).
- Sponge down the body, especially the head, with cool water.
- Continue giving first aid until the body feels cool to the touch.
- If the person is conscious, let them sip water, fruit juice, or a soft drink.

#### **Submitting Player, Manager and Coach Data**

Player, Manager, and Coach information will be submitted through the Little League DataCenter at <a href="www.littleleague.org">www.littleleague.org</a> approximately two weeks following the draft and team formations.

We will answer the survey questions in the Little League Data Center.

#### **Concussions**

#### HB 1824 - ZACKERY LYSTEDT LAW

On May 14, 2009 Washington State Governor Christine Gregoire signed into law House 1824 to be known as the Zackery Lystedt Law.

This new law requires the education of coaches, players and parents on the recognition andmanagement of concussions as well as establishing return-to-play protocol for all athletes suspected of or having a concussion or brain injury.

As of July 26, 2009, the implementation date of the legislation, the following will apply to Ridgefield Little League programs due to our use of the Ridgefield School District and other Clark County School District Facilities and Fields.

All coaches will review the Ridgefield Little League Coach's Training Module on the nature and risk of concussion or head injuries including continuing to play after a concussion or head injury and submit the training module certification form to the RLL Safety Officer prior to participation in any RLL practices and/or games.

Each time a parent/guardian registers a participant for a RLL program, they will be required to review concussion information to alert and train them as to the signs and symptoms of a concussion and the steps to follow if a concussion is suspected. The parent/guardian will certifythey have reviewed information themselves and on behalf of their child.

It will be the policy of Ridgefield Little League that any athlete showing signs or symptoms of concussion/brain injury will be removed from participation immediately, and not allowed to return to play until they have written clearance from a licensed health care provider trained in theevaluation and management of concussion/brain injury.

#### WHAT IS A CONCUSSION?

A concussion is an injury that changes how the cells in the brain normally work.

A concussion is caused by a blow to the head or body that causes the brain to move rapidly inside the skull. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious.

Concussions can also result from a fall or from players colliding with each other or with obstacles, such as a goalpost.

The potential for concussions is greatest in athletic environments where collisions are common.

Concussions can occur in any organized or unorganized sport or recreational activity. As many as 3.8 million sports- and recreation-related concussions occur in the United States each year.

#### THE FACTS

A concussion is a brain injury. All concussions are serious. Concussions can occur without loss of consciousness. Concussions can occur in any sport. Recognition and proper management of concussions when they first occur can help preventfurther injury or even death.

#### **RECOGNIZING A POSSIBLE CONCUSSION**

To help recognize a concussion, you should watch for the following two things among yourathletes: A forceful blow to the head or body that head results in rapid movement of the head. Any change in the athlete's behavior, thinking, or physical functioning. (See the signs and symptoms of concussion.)

#### SIGNS AND SYMPTOMS

#### SIGNS OBSERVED BY COACHING STAFF

Appears dazed or stunned Is confused about assignment or positionForgets sports plays Is unsure of game, score, or opponentMoves clumsily. Answers questions slowly Loses consciousness (even briefly) Shows behavior or personality changes. Can't recall events prior to hit or fall Can't recall events after hit or fall.

#### SYMPTOMS REPORTED BY ATHLETE

Headache or "pressure" in head, nausea or vomiting. Balance problems or dizzinessDouble or blurry vision Sensitivity to light Sensitivity to noise Feeling sluggish, hazy, foggy, or groggy Concentration or memory problems Confusion. Does not "feel right"

#### **ACTION PLAN**

#### WHAT SHOULD A COACH DO WHEN A CONCUSSION IS SUSPECTED?

Remove the athlete from play. Look for the signs and symptoms of a concussion if your athlete has experienced a bump or blowto the head. Athletes who experience signs or symptoms of concussion should not be allowed to return toplay. When in doubt, keep the athlete out of play. Ensure that the athlete is evaluated right away by an appropriate health care professional. Do not try to judge the severity of the injury yourself. Health care professionals have a number of methods that they can use to assess the severity of concussions. As a coach, recording the following information can help health care professionals in assessing the athlete after the injury:Cause of the injury and force of the hit or blow to the head Any loss of consciousness (passed out/knocked out) and if so, for how longAny memory loss immediately following the injury Any seizures immediately following the injuryNumber of previous concussions (if any) Inform the athletes' parents or athletes' guardians about the possible concussion and direct themto the Parent Concussion Info sheet available on the RLL web site). Make sure they know that the athlete should be seen by a health care professional experienced inevaluating for concussion.

Allow the athlete to return to play only with permission from a health care professional withexperience in evaluating for concussion.

A repeat concussion that occurs before the brain recovers from the first can slow recovery orincrease the likelihood of having long-term problems.

Prevent common long-term problems and the rare second impact syndrome by delaying theathlete's return to the activity until the player receives appropriate medical evaluation and approval for return to play.

#### LICENSED HEALTH CARE PROVIDERS

What licensed health care providers are trained in the evaluation and treatment concussions/brainof injuries and authorized to allow the athlete to return to play? Doctors (Medical MD)

Doctor of Osteopathy (DO)

Advanced Registered Nurse Practitioner (ARNP)

Physician's Assistant (PA)

Licensed Certified Athletic Trainers (ATC)

Research is currently being done to determine which other licensed health care providers may have sufficient training to qualify to authorize return to play. The WIAA will update schools asthis information becomes available.

#### **SUMMARY**

If you think your athlete has sustained a concussion...take him/her out of play and seek theadvice of a health care professional experienced in evaluating for concussion.

#### **WIAA VIDEO**

Watch the video on the WIAA website located atthis link (the video is approximately 15 minutes):

http://www.wiaa.com/ardisplay.aspx?ID=453

All 50 states have laws specific to the management of concussions and head injuries. Some states require not just leagues but DA's, ADA's and umpires to undergo annual training.

- Some states may affect only school-based activities, but many also address any groupusing school facilities or grounds for athletic purposes.
- Little League has developed a concussion overview page for each state that will besimilar to the Child Abuse page.
- The CDC (Centers for Disease Control and Prevention) website is a great tool for leagues to encourage their managers/coaches, parents and players to review concussion information • www.cdc.gov/concussion/HeadsUp/youth.html Concussions
- DA's must also be aware of their state's respective laws, especially during any Special Games events or International Tournament games being hosted by the District.
- Failure to adhere to these laws could expose the District and/or host to unwanted

liability and penalties • Some states require that the participant and a parent/guardian must sign and acknowledge that they understand the risks of concussions before they can participate

• The majority of states also require immediate removal from competition if a person hassustained a concussion and that they cannot return until being released in writing by a medical professional.

#### Ridgefield Little League Concussion Prevention, Treatment and Management Policy

The Legislature enacted a law which requires youth sports organizations to adopt a policy concerning the prevention and treatment of injuries to the head which may occur during a youth's participation in competitive sports, including, without limitation, a concussion of the brain.

A concussion is a brain injury that results from a bump, blow or jolt to the head or body which causes the brain to move rapidly in the skull and which disrupts normal brain function. The Centers for Disease Control and Prevention of the United States Department of Health and Human Services estimates that as many as 3.8 million concussions occur each year in the United States which are related to participation in sports and other recreational activities. Athletes who continue to participate in an athletic activity while suffering from a concussion or suffering from the symptoms of an injury to the head are at greater risk for catastrophic injury to the brain or even death. Ensuring that a Little League player who sustains or is suspected of sustaining a concussion or other injury to the head receives appropriate medical care before returning to baseball activity will significantly reduce the child's risk of sustaining greater injury in the future.

THEREFORE, **Ridgefield Little League** hereby adopts the following policy for purposes of prevention, treatment and management of injuries to the head that may occur during a player's participation in the Little League program, including, without limitation, a concussion of the brain:

- 1. Prior to a team's first practice each season, every manager, coach and adult assistant shall:
- a) Familiarize themselves with the CDC publication "Heads Up Concussion in Youth Sports A Fact Sheet for Coaches". This publication will be provided to all such individuals by the League Safety Officer or other Board members; and,
  - **b)** Complete the CDC on-line training course at: http://www.cdc.gov/concussion/HeadsUp/online training.html
- A copy of the Certificate of Completion for each of the above individuals shall be submitted to the League Safety Officer.
- 2. If a Little League player sustains, or is suspected of sustaining, an injury to the head while participating in any Little League game or even the player must:
  - a. Be immediately removed from the game or event; and
- **b.** May only return to Little League activity if the parent or legal guardian of the player provides a signed statement from a provider of health care indicating that the youth is medically cleared for Little League participation and the date on which the player may return to participation.
- **3.** The Little League player and his or her parent or legal guardian must sign the statement below acknowledging that they have read and understand the terms and conditions of the policy, and agree to be bound by the policy.

#### Ridgefield Little League Concussion Prevention, Management and Treatment Policy Player and Parental Acknowledgement

We, the undersigned, acknowledge that we have been provided with a copy of the Ridgefield Little League Concussion Prevention, Management and Treatment Policy, and that we have read and understand the policy or it has been read to us and we understand the same. We hereby agree to follow all procedures set forth in said Policy at all times during which our son or daughter participates in Little League activities and events.

#### **Safe Sports Act**

- "Protecting Young Victims from Sexual Abuse and SafeSport Authorization Act of 2017" became federal law in 2018
- The goal of SafeSport is to protect children from abusive situations by engaging more people in the reporting and education processes
- A volunteer now can be held legally responsible if they have firsthand knowledge and fail to report any type of Child Abuse to the correct parties
- SafeSport covers all types of Child Abuse both physical and psychological
- SafeSport prompted USA Baseball to create Pure Baseball

#### **USA Baseball Pure Baseball Initiative**

- Little League International and all local little league programs must adhere to the following requirements from the SafeSport Act:
- Reporting of Abuse involving a minor to the proper authorities
- All volunteers of a local league are now mandated reporters and could face criminal charges if the league chooses to ignore, or not report to the proper authorities, any witnessed act of child abuse, including sexual abuse, within 24 hours.
- Local leagues must be aware of the proper procedures to report any type of abuse in their state. Please reference www.LittleLeague.org/ChildAbuse
- Leagues must adopt a policy that prohibits retaliation for "good faith" reports of child abuse.
- Leagues must adopt a policy that limits one-one-one contact with minors.
- Leagues are highly encouraged to complete the Abuse Awareness training provided by USA Baseball and/or SafeSport.

#### LITTLE LEAGUE, BASEBALL AND SOFTBALL ACCIDENT NOTIFICATION FORM INSTRUCTIONS

Send Completed Form To: Little League, International 539 US Route 15 Hwy, PO Box 3485 Williamsport PA 17701-0485 Accident Claim Contact Numbers: Phone: 570-327-1674

Accident & Health (U.S.)

- 1. This form must be completed by parents (if claimant is under 19 years of age) and a league official and forwarded to Little League Headquarters within 20 days after the accident. A photocopy of this form should be made and kept by the claimant/parent. Initial medical/ dental treatment must be rendered within 30 days of the Little League accident.
- 2. Itemized bills including description of service, date of service, procedure and diagnosis codes for medical services/supplies and/or other documentation related to claim for benefits are to be provided within 90 days after the accident date. In no event shall such proof be furnished later than 12 months from the date the medical expense was incurred.
- 3. When other insurance is present, parents or claimant must forward copies of the Explanation of Benefits or Notice/Letter of Denial for each charge directly to Little League Headquarters, even if the charges do not exceed the deductible of the primary insurance program.
- 4. Policy provides benefits for eligible medical expenses incurred within 52 weeks of the accident, subject to Excess Coverage and Exclusion provisions of the plan.
- 5. Limited deferred medical/dental benefits may be available for necessary treatment incurred after 52 weeks. Refer to insurance brochure provided to the league president, or contact Little League Headquarters within the year of injury.
