

Dear LWYFL Football Families,

We have exciting news to share with our program.

The previous GCFYL rule allowing only one player move during an athlete's LWYFL career has officially been removed by the GCFYL. Beginning this season, we will hold open evaluations each year for returning players.

This gives every athlete the opportunity to seek more playing time, new challenges, or a different team environment if they choose.

Here is what you need to know regarding returning player reevaluations:

- Any returning player may request to be reevaluated each season.
- Participation in reevaluation is required to be considered for a team move.
- Being reevaluated does not guarantee a team move.
- If there is only one team in your player's grade, you do not need to attend evaluations.
- This process is completely optional. If your player is happy where they are, there is no need to attend.
- Players who want to be part of the reevaluation process must sign up in advance. Team needs, open positions, and roster size will play an important role in any potential changes.

All player movement decisions will be reviewed and approved by the LWYFL Board to ensure they are appropriate and in the best interest of both the athlete and the program. Please note, once re evaluations are completed and rosters are finalized, there will be no player moves during the season.
