At no time will a player be drafted from outside of Sherwood if it overloads the team (13 players or more).

### ***Age Levels***

7th/8th grade (Senior)

5th/6th grade (Junior)

3rd/4th grade (Midget)

2<sup>nd</sup>/3<sup>rd</sup> grade (Majors)

1st/2<sup>nd</sup> grade (Minors)

Kindergarten (T-Ball)

*\* See JBO Official Rules and Regulations manual for description for each level.*

### ***Exceptions to grade levels***

All players will play in their own grade level bracket except for the following conditions

1. Players/Parents may register to play above the designated grade level. Players/Parents choosing to register and play above their designated grade level do so voluntarily. Players will be evaluated at the registered grade level and drafted accordingly.
2. In accordance with current Registration rules, there will be no refund should a Player/Parent not be content with the player's evaluation or team draft and chooses not to play.

### ***Evaluations:***

This documented scoring system affects all players trying out for the JBO portion of SJBO. The main goal in creating this document is to ensure that players will be drafted into a level of play where they belong. It is also the goal of SJBO to ensure that all players have been evaluated as fairly as possible. To accomplish this goal the following evaluation scoring system will be used.

### ***Logistics:***

The Board will determine the date and location for each evaluation. Every effort will be made to hold evaluations either outdoors or in a facility that will allow scorers to evaluate each player fairly. All players shall evaluate with his/her own grade level.

SJBO would like to make the evaluation atmosphere more like a clinic environment. This will accomplish two things. First it will help the kids play in a more relaxed environment, and secondly it will give the scorers more of an opportunity to help teach the kids while they are being scored. This will allow the kids to improve and also allow the scorers the opportunity to see how well players follow instructions.

### ***Scorers and confidentiality:***

Each evaluation will have a minimum of 2 independent scorers. These scorers should have no affiliation with SJBO or players in the SJBO program.

Prospective coaches may be in attendance during the evaluation, and may keep their own notes.

No parents are allowed interaction with scorers during the evaluation process. No scorers will share their scores with anyone. All scores will be documented on the score sheets which will be collected by the President or Registrar immediately after the evaluation ends. ***These scores are not to be shared with anyone!*** If any parents, coaches, etc insist on seeing scores, they are to be directed to the President. The President will then explain the process to them.

All score sheets will be collected by the coordinator and the scores will be tallied by the Registrar only. No scores will be shared with other Board members or the public at any time.

### ***Evaluations:***

- Each evaluation will have three stations (outfield, infield, hitting).
- Players will be divided into three groups where they will drill in each station for approximately 30 - 60 minutes.
- Each station will have evaluators that will evaluate the players and they will remain at those stations for all evaluation days.
- Each player shall be allowed to evaluate only once.
- In the event of a player being injured or incapacitated at the time of evaluation, that player shall be placed at the discretion of the Board no later than the latest date for adding players to rosters per JBO rules, which is typically June 1.
  
- If a player can't attend the assigned evaluation time, the Coordinators & Registrar will work with the Player/Parent to assign an alternate evaluation time occurring over the evaluation weekend.
  
- In the event the player cannot make the scheduled evaluations, the player will receive a "0" score and will be drafted to a National level team.

### ***Federal Tryout and Draft***

After the evaluation, a tryout for the federal team will be held on a different date. Any player may try out for the federal team. At the conclusion of the federal tryout, the federal team coach will select 12 players for the team. More or less players may be selected at the Board's discretion. Any player selected to the team that wasn't in the top 20 scores in the evaluations must be approved by the President during the team selection.

## **Drafts:**

### **General**

The draft will be coordinated and managed by the President and Coordinator with approval of the Board. All drafts must be complete within one week of the evaluations.

All prospective player information must be provided to the coaches at the time of the draft. This list shall include the player's name, previous playing level, tryout number, ranking order, and availability.

### **At the Senior, Junior, and Midget Levels**

All players must physically participate in evaluations to be eligible to be drafted above the National level.

All players will be ranked by the evaluation scores in order from highest to lowest after the general evaluation sessions are complete.

Players who make the Federal team(s) will be removed from the list of ranked players.

Once the Federal team(s) is selected, and those players removed from the master ranking.

The remaining players will be eligible to be drafted by the American coaches, thus comprising the American draft pool. Any player selected to the team that wasn't in the top 80% of scores in the American draft pool must be approved by the President during the team selection.

The remaining players will comprise the National draft pool.

### **Participants**

All coaches from that league and level must participate in the draft. In the event that the head coach cannot be present, the Board must be notified prior to the draft. The head coach shall arrange for an assistant coach or other appropriate representative to be present and act in behalf of the head coach.

### **Sequence**

The draft will be conducted in the following order: Federal, American, and National. Each level will finish the draft process prior to the beginning of the next draft. Coaches may only be present at, and participate in, the draft at the level they will be coaching.

### **Team Distribution**

The number of players for each level will regulate the number of teams at each level. There will be a minimum of 11 players (except for TBall) and a maximum of 13 players per team. SJBO will follow the JBO matrix to determine how many teams to field at each level. Based on the number of teams, the Board may choose to go above the matrix.

TBall shall preferably field between 7-10 players per team. This keeps the players more active and enhances the quality of their playing experience.

### **Selection Process**

Players will be ranked from their evaluation total scores from highest to lowest. The number of teams at each level will be determined at this time. The coaches picking order will also be determined at this time.

by drawing lots. The draft will proceed in a serpentine manner (with the coach and asst coach's child selected as the #3 and #4 picks) until all coaches have selected their teams.

Every effort will be made to keep siblings on the same team unless otherwise specified or if there is a talent difference that would result in one child playing at a different level than the sibling.

### **Player Notification**

Coaches shall notify their players within 24 hours of when the draft is completed. Once teams are selected, there will be no refunds.

### **Player Changes**

#### **Draft Night Trading**

The trading of players may occur after the draft with the following restrictions:

- The President or Coordinator is present
- The coaches from all affected teams agree to the trade
- It is determined that this will not adversely affect any team
- Trading may only occur the night of the draft
- Team rosters are locked the night of the draft unless there are extenuating circumstances

### **Movement of Players**

- If a Coach believes it is necessary to obtain a player from another team, he shall notify the President, Coordinator, and Registrar (the Player Change Committee). The Player Change Committee shall meet with the Coach seeking the player and the Coach of the team from which the player is sought. The Coach shall designate the player sought and such decision must be affirmed by a majority of the Player Change Committee. Thereafter Roster changes shall be affected. If the request is made within 30 days from the official start of play at that level (the first Monday following the conclusion of spring vacation for the Sherwood School District), the player proposed for movement must have qualified at the most recent evaluation for that level to which he is sought. If the request is made after 30 days from the official start of play at that level, then any player is eligible for movement. For example, if a Federal team seeks an American player and it is within the 30-day period, the American player must have qualified as a Federal player at the most recent evaluation. If beyond the 30-day period, any player would be eligible.

### **Coaches**

#### ***Qualifications***

All individuals interested in coaching will be required to complete a coaching application and criminal background check that will be reviewed by the Board. The Board will try to approximate the number of coaches required at each age level and make selections based on experience, past performance, and community input. Each coach will be required to attend at least one coaching clinic and a safety course that will be sponsored by the league.

Non coaches may also attend the coaching clinics as long as it does not negatively impact the training sessions due to size.

### ***Coach Selection***

Each team will have a head coach and one assistant coach. All individuals wishing to coach within Sherwood Junior Baseball (SJBO) must notify the Board prior to the scheduled day(s) for evaluations. All prospective coaches at Midget level and above will be interviewed. Applications to coach must be approved by a 2/3 vote of the Board before they can coach a team.

Candidates for coaching positions will be evaluated based on the following criteria:

- Meeting the coaching qualifications as outlined within this Operating Manual
- Past coaching experience in baseball and other sports
- Personal experience gained by playing, attending clinics, or other specific training
- Personal reference

In the event that the number of coaches requesting to coach at a particular level exceeds the number of teams available at that level, the Board will make the final selection of coaches. This selection will be made after the Board conducts interviews with each prospective coach. The Board shall complete this process prior to the player evaluations and draft process.

It is the responsibility of the Sherwood Junior Baseball Board to ensure that this goal is met.

### **TBall**

- Grade: Kindergarten:
- TBall will consist of players starting the season hitting off a tee. If the coach feels a player is ready for live pitching, then the coach can try pitching to the batter using the underhand delivery. When the player gets three strikes, they must then hit off the tee. This will keep the game from slowing down too much.
- The TBall teams will consist of 7-10 players
- All players will play in the field at all times (unless they request to sit out for any given reason)
- All teams will bat the entire roster

- Each team will remain at bat until each player has batted once.
- Coaches will umpire the games

### ***TBall Rules***

- Games will consist of 4 innings or 1 ½ hours, whichever comes first. No new inning will start unless the game can be completed in the allotted time.
- Each team will bat the entire roster
- The batter will go directly back to the bench after each offensive out
- ***No statistics will be kept for any player!!!***
- Outs will not be counted or recorded
- Runs will not be counted or recorded
- A parent or coach will play the catcher position to place the ball on the tee
- Throwing a bat will result in the batter being called out (remind them each time up to bat if they have a problem with this)
- Once the batter contacts the ball, the ball must travel at least 6 feet beyond the tee in order to be considered a live ball. It is recommended that the coaches chalk a six-foot arc, from baseline to baseline, to remove any doubt about a live baseball.
- Batters have three chances to put a ball in play. If the batter is unable to put the ball in play after three attempts the batter will be out.
- Coach pitching will start on the sixth game of the season. Coaches are encouraged to pitch from their knees and toss the ball either underhand or softly overhand. A batter will have three swings at a coach pitched ball. If the batter is unable to put the ball in play the tee will be brought back in and the batter will have one attempt to put the ball in play. If the player is unable to put the ball in play the batter is out.
