

## Membership Purchased for Parent Instead of Athlete – Membership Link

When a membership is purchased for a parent when intended for an athlete, the following steps will need to be taken to correct the problem:

1. The membership will need to be cancelled (and refunded according to USAV/Region policy)
2. Login to your Sports Engine account and ensure that you as the parent are set as the account owner (showing the “Me” banner).

3. Click on the membership link on your Region’s website (or that has been sent to you)
4. Choose or create your child’s profile on the “Who is this membership for?” page.

5. Complete the membership purchase process.
