NOR-GWYN Softball

Minors Rules and Guidelines

I. LEAGUE OBJECTIVE

Nor-Gwyn Softball offers the girls in our local communities an athletic forum to help develop both their physical and social skills through the game of softball. Our supervised program is designed to provide softball instruction in recreational and competitive environments, while promoting the ideals of good sportsmanship, fair play, honesty, loyalty and a respect for authority. We want to offer an enjoyable and positive experience for the girls enrolled in the program. All directors, officers, coaches and members shall bear in mind that, although important, the attainment of exceptional athletic skill and the winning of games are secondary to the goal of helping to mold the future women of our community.

Although Nor-Gwyn Softball does provide a competitive environment for girls with better than average skills, through our Select and Travel programs, the majority of the girls enrolled will play in the recreational divisions, which are intended to provide the players with an environment where they can learn the game of softball and have fun at the same time. These are instructional divisions with an emphasis on providing the player with the proper development and guidance needed to learn and acquire the necessary skills to grow in the sport and progress through each division.

II. DIVISION OBJECTIVES

Minors will continue to expand upon the instruction set forth in the previous league. It is here that the girls get introduced to the art of pitching and a deeper understanding of how to play the game. We want to create an environment where the player will learn, have a good time and continue to enroll in the program in subsequent years. The player will continue to be taught the skills of softball, working with teammates and coaches to learn and master their softball skills. This is an instructional, non-competitive division; thus, the parents, coaches and players should place their emphasis on the sport and having a good time.

- 6) A live ball is declared dead when a fielder throws the ball to the pitcher and she has control of it in the pitching circle. The play stops at this point. A base runner may advance to the next base on a dead ball if, and only if, she is past halfway to the next base. If she is not past halfway, she must return to the original base. The defense may make the play at the base in lieu of throwing to the pitcher to end the play, in which case the ball shall remain live.
- 7) No dropped third strike.
