

AED AWARENESS

- **AEDs are a public safety measure.**
- **AEDs at sporting events could be used on an athlete or an adult: (coach, teacher, spectator, or official).**
- **USA Football recommends that all practice and game fields have access to an AED.**
- **Onsite AEDs increase the likelihood of bystander CPR and response.**
- **Always make sure onsite AEDs are available. Check doors, locks and keys prior to the athletic season and make sure they are present during activities.**
